Senate Passes Slum Clearance, Housing Bill

See Swift Action In House

Would Build 810,000 Units

(Compiled from Wire Dispatches)

The one and one-half billion dollar public housing and slum clearance bill received a formal OK from the Senate late last night after five hectic days of debate.

Senate approval sent the bill to the House where leaders predicted early action on the long-range plan.

The bill authorizing a vast slum clearance program and construction of 810,000 public housing units during the next six years was passed by the Senate a few minutes before last midnight. The vote was 57 to 13.

The measure also provides a $275,000,000 farm housing program and for a research program designed to spur home construction by cutting building costs.

Fate of the bill in the House—which is in recess until Monday—is uncertain. Somewhat similar bills passed by the Senate last year and in 1946 died in the other branch of Congress.

On final passage, 33 Democrats joined 24 Republicans in voting for the bill. Against it were two Democrats and 11 Republicans.

BEAT AMENDMENTS

Sponsors of the bill—11 Democrats and an equal number of Republicans—were able to bring about the defeat of practically all major moves to amend it.

Among amendments batted down was one by Senators Bricker (R-Ohio) and Cain (R-Wash) which would have prohibited segregation on the basis of race, creed or color in the renting of public housing.

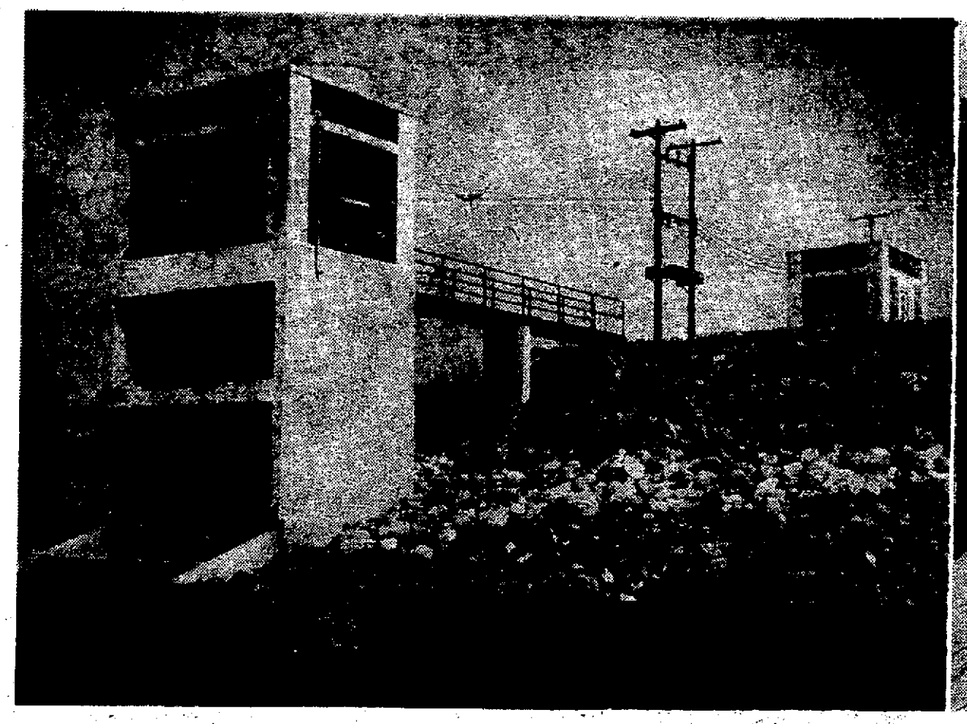
The proposal was beaten 49 to 31.

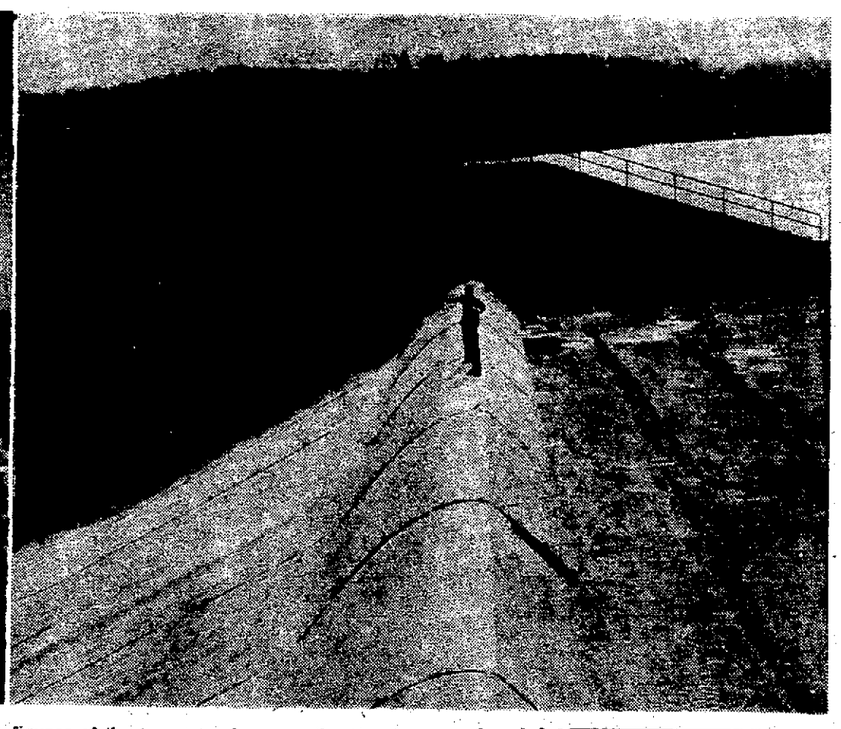
Major provisions of the housing bill:

1. The federal government would contribute up to $308,000,000 annually for up to 40 years to help finance 810,000 public housing units which would be built in the next six years.

2. A five-year slum clearance program, with two-thirds of the cost to be met by the federal government and the balance by local communities. The bill authorizes $1,000,000,000 in federal loans and $5,000,000 in grants.

3. A three-part $275,000,000 farm housing program: 33-year loans at not more than four per cent interest, to be available to owners of self-sustaining farms who are otherwise unable to finance adequate housing; a similar loan program, along with annual federal contributions for up to 10 years to owners whose farms were not at the time self-sustaining but could be made so; loans and grants would be available for minor improvement and repair of dwellings on farms which could not be made self-sustaining.





MAN-MADE LAKE—Two control towers (left) overlook Clear Fork lake from atop the $425,000 earthen dam. From them the operators can regulate the project's operations. The 220-foot-wide spillway is one of the most impressive sights at the project. It is situated at the south end of the lake and is part of the dam. The figures of the two men shown on the structure are dwarfed in comparison with the giant concrete installation. Later, when the lake is full, excess water will pour over the spillway and run off through the Clear Fork creek south and east of the reservoir. The dam resembles a huge stone snake with eight curves all along its more than half-mile length.

Spring Rains Feed City's New Reservoir

As spring covers the southern Richland county hills with green, Mansfield's Clear Fork reservoir is taking on more of the appearance of a lake.

Spring rains are filling the reservoir which will boost the city's water supply as soon as a filtration plant and pumping station are completed.

The line which will bring the additional water to the city's Woodland reservoir is ready.

The $425,000 earthen dam will impound enough water to up the city's supply by 5,000,000 gallons daily when facilities for pumping it are available.

The project now is in its third and final phase. In March city council authorized Service-Safety Director Earl T. Garrison to advertise for bids for the low-lift pumping station. Council earmarked $128,400 for the project. This and the filtration plant are still in the blueprint stage.

Rap Secrecy In Program

WASHINGTON — (UP) — Republican leaders today criticized as inadequate the information given Congress so far on the proposed $1,450,000,000 program to help arm the free nations of the world against communist aggression.

Senate GOP Leader Kenneth S. Wherry, Neb., said Secretary of State Dean Acheson had landed Congress "just another figure." Wherry called for a "complete breakdown" on the projected arms spending which is designed to reinforce the Atlantic Security pact.

Republican policy chief Robert A. Taft, O., said congressional demands "were not satisfied" by the mere cost estimate. He said the Senate must have all the details on the arms plan before it takes up ratification of the Atlantic treaty.

"I don't see how you can consider them separately," Taft said.

Acheson and Defense Secretary Louis Johnson set the $1,450,000,000 first-year price tag on the arms plan at a conference with members of the Senate Foreign Relations committee yesterday.

Contract Notice Ignored By Lewis

WASHINGTON—(UP)—John L. Lewis today ignored a contract termination notice from the Southern Coal Producers association. But he risked another court action if he maintains that attitude for long.

Informed sources expected that he would take no formal notice of Moody's letter until the union's policy committee meets here Monday. The committee is expected to authorize that the customary union notice of termination of contract be sent to all operators covered by the present agreement.

GET HEALTH BILL TODAY

WASHINGTON — (UP) — President Truman's plan for health insurance for most Americans goes to Congress today.

Trash Days Announced

Pick-up dates for the trash to be gathered in the "Clean-up, Fix-up, Paint-up, and Control Rats" week, May 2 through May 7, were announced today by the Chamber of Commerce fire prevention committee.

Albert L. Allen jr., chairman of the fire prevention committee in the absence of William Schultz, said city trucks would collect junk and the general accumulation of winter's trash on May 4, 5, and 6.

It was decided by the clean-up group to have the pick-ups made on these days, which fall on Wednesday, Thursday and Friday, so people would have an opportunity to get their trash ready on Monday and Tuesday.

Service-Safety Director Earl T. Garrison said ashes, tin cans, and other trash normally picked up by the city on the monthly trash runs would NOT be acceptable during this clean-up drive.

The dates trucks will be in specific wards during clean-up week, will be announced as soon as a definite schedule for each ward is set up by the fire prevention committee and the city.

Ask Reich Trade

FRANKFURT — (UP) — Communists of western Germany in a new feint toward the lifting of the Berlin blockade proposed today that trade be renewed between east and west Germany.

UEW Leader Draws Fine

Sent to Jail In Contempt Case

CLEVELAND — (AP) — For refusing to answer three questions regarding communist affiliation and activity, a union leader yesterday was ordered to jail for 30 days and fined $1,500.

Common Pleas Judge James C. Connell imposed the penalty on Joseph Kres, 41, business agent of Local 735 of the CIO United Electrical Workers. The union has been engaged in a violence-punctuated strike at the Fawick Airflex company.

Kres was brought before Judge Connell on contempt of court charges arising from the dispute. He was held in summary contempt when he refused to answer the questions.

Kres is among a dozen members of the union who have been cited for contempt as a result of picket line violence. Previously, he had been fined $2,000 and given a 40-day jail sentence on the same charge.

The Fawick strike began March 7 when the company withdrew recognition of the union after it failed to comply with non-communist provisions of the Taft-Hartley act. The company since has begun partial production.

Stephen Wise Buried Today

Wins National Recognition

City Places Second In Fire Prevention

Mansfield had the second best fire prevention record of any city in its population class in the nation last year, the Chamber of Commerce learned today.

Three years ago Mansfield won first place in the United States for its fire prevention activities.

Selection of the city for the second-place award was made by the U. S. Chamber of Commerce in the inter-Chamber Fire Prevention contest.

John G. Routzon, C. of C. secretary-manager, received the notice today from Ralph Bradford, general manager of the U. S. Chamber, in a telegram from Washington, D. C.

The certificate of award will be presented to the Mansfield C. of C. at the annual meeting of the U. S. Chamber of Commerce in Washington, D. C., from May 1 to 5.

Mansfield is in the 25,000-to-50,000 population group of cities, Routzon said. He pointed out many of the cities just over the 25,000 mark have not as hard a row to hoe in qualifying for honors as a city such as Mansfield which has nearly 50,000 persons."

William Schultz, chairman of the Mansfield Chamber's fire prevention committee, and his co-chairman, Albert L. Allen jr., should be proud of their committee's achievement and grateful to the citizens of Mansfield and Fire Chief L. J. Steele for their cooperation and efforts that have made this award possible, Routzon declared.

'Mixup' Halts Cleaning Job

DELAWARE — (INS) — A 67-year-old Delaware woman flunked her chemistry test.

Miss Mary Skatzes took the advertising claims of two cleaning compounds seriously and decided to mix the two for a sure-fire cleaner.

Miss Skatzes got the fire. She was overcome by fumes. Police Chief Leonard Hoffman said he believed the mixture contained chlorine gas.

The chief and fireman Carl Zimmerman administered oxygen. House-cleaning was temporarily suspended for Miss Skatzes.

Fire Levels Farm Home

An eleven-room home on the Olivesburg road near the Richland Shale Brick company was destroyed by a fire yesterday afternoon.

The home, occupied by Earl Brooks and his family, was blazing beyond control before the Ashland fire department could make the 14-mile run. No one was injured.

No estimate of the loss was available today.

Firemen said they believe the blaze was started when an oil stove blew up.

The home is owned by the Richland Shale and Brick company, and is located about four miles northeast of Mansfield.

Police Probe Tenor's Death

ATLANTA, Ga. —(INS)—Police today pinned their hopes of solving the murder of John Garris, handsome Metropolitan Opera tenor, on a "lucky break" tracing of a mysterious phone call.

Investigators said the 36-year-old singer made several calls to a hotel for men before his body was found in an Atlanta alley yesterday with a .38 caliber bullet through his heart.

It was learned that one of the calls was made by Garris shortly before going to dinner with Mrs. Alfred Mayer, Atlanta socialite and Miss Herta Glatz, also a member of the Met's touring opera company.

Neither could tell who Garris was trying to reach or why.

2 Escape In Guard's Car

OSR Fugitive Called 'Dangerous'

Two Mansfield reformatory trusties who escaped the institution's horse barn yesterday afternoon in a guard's auto were sought throughout Ohio.

Acting OSR Superintendent George J. Allarding said the escapers Eugene Van Bibber, 23, of Franklin county (Columbus) and Leo Francis Evans, 19, of Stark county. Van Bibber was discribed as dangerous.

Allarding said the get-away was made in a car owned by Arthur Garver, a guard, although the car was locked. Allarding said VanBibber and Evans must have crossed the ignition wires in the car to start it.

The superintendent said the car was seen heading toward Mansfield at 3:45 p. m. He added that, five minutes later a general alarm was broadcast throughout the state. However, no word of the fugitives was reported at noon today.

Allarding described the escape car as a 1938 Chevrolet two-door sedan bearing license VU 494.

VanBibber, described by Columbus police as a "tough cookie", would have appeared before the parole board in June, Allarding said. VanBibber was received at the institution on Aug. 2, 1948 to serve from one to 25 years for armed robbery. Evans was serving a one-to-20-year term for auto theft and was received on June 12, 1948.

Meanwhile, Allarding reported that Ben Jamison, a returned parole violator who escaped from the Sandusky honor camp on Jan. 10 gave himself up to the night captain at 3 a. m. today.

Allarding said Jamison told the officer he had "been bumming around and figured couldn't beat the rap." As a result of his voluntary return, Jamison will be given the minimum sentence of six months.

Pilots Near Goal

FULLERTON, Cal. — (INS) — Endurance fliers Bill Barris and Dick Riedel battled today against increasing fatigue and dangerous drowsiness with their goal of six full weeks aloft only 103 hours away.

Save Those Nickels, 5c Beer's Back!

The common nickel, usually scorned in these modern days of free spending, is coming back into its own. Today it will buy something which hasn't been seen in Mansfield for years—a nickel beer!

The lowered price, reminiscent of the gay 90's, went into effect at one local tavern last night.

The bartenders rolled out the barrels, rolled up their shirt sleeves and shoved the suds across the bar to the tune of ringing nickels.

"They sure kept us busy," one of the workers chuckled today.

G-Men Nail Desperado

INDIANAPOLIS — (INS) — America's "public enemy no. 1" was in serious condition in an Indianapolis hospital today after sharp-shooting FBI agents cut him down in a running gun battle through the city's crowded streets.

The desperado, Clyde Milton Johnson, 30-year-old escaped convict and bank robber, was wounded while shooting his way out of a trap but later was captured in a physician's office.

Described as the "man most wanted" by the G-men, Johnson was confronted by three FBI agents as he left his hotel last night. He whipped out a pistol and opened fire as he fled down the street.

The G-men returned the fire and wounded the desperado before he jumped into a taxi and ordered the cabbie to drive him to a doctor's office. Another shot through the rear window of the cab struck Johnson in the back.

Westinghouse Furloughs 560

More lay-offs struck Westinghouse employes today as 60 workers at the Mansfield plant were furloughed and plant officials scheduled 500 more lay-offs for next week.

Plant officials said a reduction in production schedules was responsible for the additional decrease in personnel. This is the second large-scale lay-off at the Mansfield plant within three weeks.

Eleven hundred employes were "furloughed" at the first of the month due to production cut-backs, according to plant officials. Officials today said that the latest cut-back would reduce the employment figure at the plant to approximately 5,540 workers, a reported 60 workers "under the highest pre-war employment."

It was stated that the employment reduction was made necessary "to bring about a better balance in inventory of finished products."

All workers affected by the lay-off have been hired since February, 1947 and are men, officials said. The refrigerator line will continue on two-shift schedule for five days a week.

62 Cities Compete In Events

4-Mile Race Tops Today

By FRED THARP
(News-Journal Sports Editor)

Nine hundred young athletes began converging on Stadium field today for the 18th running of the famed Mansfield relays.

From 62 cities in Ohio, West Virginia, Pennsylvania and Michigan, scholastic track and field performers will compete in 19 events. First of the title races, the four-mile relay, is scheduled to be run at 3:30 p. m. today. The grade school relay is set for 3:15.

A crowd numbering upwards of 3,000 persons is expected at Stadium field for the finals tomorrow afternoon at 1:45.

Preliminary competition in eight events is scheduled Saturday morning with 17 championship events comprising the afternoon program.

Most of the high school track stars in the Buckeye state will battle throughout the day for the $1,500 prize list put up by the Tyger club, which has sponsored the Mansfield Relays for the past three years.

YARD HIGH TROPHY

To the victor goes the yard-high rotating trophy, while each of the first ten teams will get a 24-inch permanent trophy. Eleven other big permanent trophies will be awarded with the individual athletes coming in for 220 belt buckles and medals.

Springfield, making one of its infrequent Relays appearances, romped home with the 1948 championship, scoring 31.7 points. Dayton Dunbar and Columbus Central, the 1947 titleholder, tied for second with 23.

Four individual champions and 17 other athletes who placed in the 1948 edition of "America's largest independent inter-scholastic classic" will compete in the Relays tomorrow. But these stars will be hard-pressed to defend their laurels as Ohio seems to be set for one of its banner track and field seasons.

The quartet of champs includes: Bob Cooper, Columbus Central, in the quarter-mile; Bill Smith, of the same school, in the 220; Jim Jarvis, Cleveland Central, in the high jump and Lynn Owens, of the state championship Dayton Dunbar team, in the 880.

Such sprinters as Tommy Tucker, Mansfield; Bob McVey, Newark; Warren Walton, Donora, Pa., and Bill Kibler, Bucyrus, should give Smith plenty of competition. Cooper's main threat appears to be Ronnie Myers, Galion, who ran Cooper a close second in 1947.

Mansfield's Willie Fowler placed fourth in the high jump

Catholics Get Guide

WASHINGTON — (INS) — America's twenty-six million Roman Catholics today received a new guide explaining salvation outside and within the church.

The teaching on salvation is clarified in a new Catholic catechism released after 12 years of work.

The book is the final revision of the famous Baltimore "Penny Catechism" which was published first in 1880 and now is standard in nearly all dioceses of the country.

This revision is an advanced text for use in secondary schools and colleges. It is more far-reaching than earlier revisions for use in primary grades and elsewhere.

The advanced text says that all are obliged to belong to the Catholic church to be saved. But it takes the position that persons may be saved outside Catholicism "if they do not know that it is the true church" and if they "make use of the graces God gives them."

Vandals Smash Sanatorium, Auto Windows

Burglars Ransack Public Library, Flee With $55

Burglars and vandals spread more destruction last night in the Mansfield area.

Burglars broke into the Mansfield Public library stole $55 in cash from an office desk and ransacked other desks throughout the building.

At the same time, Louis Zahn, contractor for the new tuberculosis sanatorium on State Route 39, reported that six windows were shot out of the building with either a BB or pellet gun.

The library burglary, discovered by police on routine patrol at 12:15 a. m. today, was believed to have occurred between 9:30 p. m., closing time, and midnight.

Officers said they found a basement window on the east side of the building open and the glass broken near the latch. Head librarian Miss Lois MacKellar and assistant librarian, Edith Jones, were called to the scene.

Police said the money was taken from a cash box kept in Miss MacKellar's desk. The bulk of the money, library officials said today, and estimated at about $50, represented the Bellville book fund, built up by fine and rental fees in the county extension work. Five dollars in change was petty cash, kept in the box for postage for library business.

Zahn reported the destruction at the sanatorium yesterday to sheriff's deputies. The contractor placed value of each window at $10. All were broken out on the southeast side of the building.

Deputies said no children had been seen near the building during the day and apparently the damage was done at night. They said Zahn told them he would hire a watchman for the sanatorium.

D. P. Leiter of Lucas told police two windows in his car were shot out yesterday afternoon while the car was parked on Park avenue west near Rowland avenue. He said the damage apparently was done with a BB gun.

Red Cross Swim Program to Start July 5

2 Training Periods Set

Classes Free to City Youngsters

Sam Fox, chairman of the water safety committee of the Red Cross, today announced the dates for the Red Cross summer swimming program.

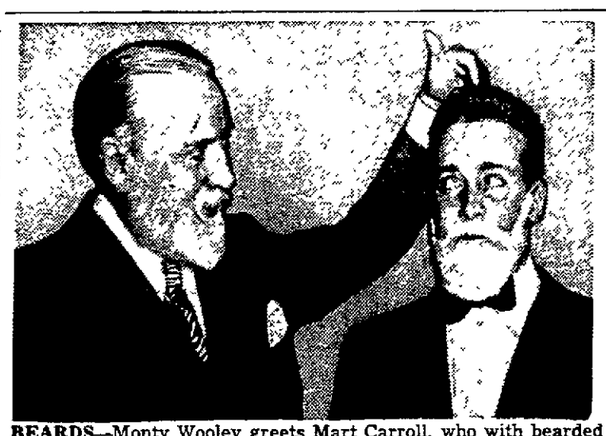
Fox said two sessions of classes will be held so children may choose the one which does not conflict with other vacation activities.

The first session will begin July 5 and continue through July 29. The second will begin Aug. 2 and continue through Aug. 26.

Swimming classes will be held each morning, Tuesday through Friday. There will be four one-hour classes each day beginning at 8 a. m. and ending at noon.

The classes are open to all Mansfield youngsters without charge for instructions. Minimum age for those participating in the program is six.

It has not been determined where the classes will be conducted.



BEARDS—Monty Wooley greets Mart Carroll, who with bearded students met Wooley as he arrived to appear in Harvard Dramatic Club's production of "The Man Who Came to Dinner."

Talks On City's Traffic Problems

Some of the highlights in the problems of parking and routing of cars in Mansfield were presented to the Mansfield Optimist club Wednesday by Robert Peele, Optimist member and a member of the Mansfield Chamber of Commerce projects committee.

Peele pointed out that re-routing of U. S. Route 42 is not the only problem confronting the city of Mansfield. The lack of parking space in the downtown area is of possibly as great if not greater threat to business.

Peele explained that families i the surrounding trading area will not come to Mansfield to shop if they can't find a place to park.

Will Build Hospital

PIQUA — (AP) — A $1,200,000 convalescent hospital will be constructed on an 80-acre tract halfway between Piqua and Troy, it was announced yesterday.

SEVENTY YEARS 1879 1949 FINE CLOTHES MAKING

You Can Save $10 to $15 on Your Next Suit of Clothes

It's a well known fact that there's a great difference in men's clothing values—that one clothier may offer suits and topcoats of same or similar quality for as much as $10 to $15 less than others.

It's all a matter of facilities, know-how, and business methods. Some dealers buy their clothes. We make our own. Some do a small volume of business with a large markup. We do a large volume with a small markup.

Some sell on credit, and have bookkeeping costs and losses from bad debts. We sell for cash. The money thus saved is passed on to you in finer clothes and lower prices.

There are additional ways of keeping prices down and quality up. We know and use them all, because we've been making clothes for seventy years, and have always specialized in VALUE-GIVING.

Can't Repair Bleachers In Galion Park

Board Gets Report Of 3 Contractors

GALION — A report from three Galion contractors that the bleachers at Heise park are beyond repair, was a major problem presented to the Galion Board of Education at its monthly meeting last night Ivan Cass, John L. Walker and Wade Stevens were the Galion contractors who reported on the condition of the bleachers

In addition to the report, the board awarded contracts for the purchase of school furniture for the South Elementary building. Eleven bids had been received and opened on April 7 at Supt. M. E. Shank's office.

The contracts will go to the Dobson-Evans company of Columbus for the bulk of the seats for the school; Miller Office Supply company of Piqua, was the successful bidder for student tables and Kyser Sales company of Warren for folding lunch-room tables.

Johnny Appleseed area, Boy Scouts of America, was granted use of the school's section of Heise park for the annual Camporal to be held June 16, 17, and 18 Galion District committee will be host for the Camporal.

The board also approved the request of the Galion Shrine club to close the schools early May 3 in order the youngsters may attend the Mills Brothers circus.

Board members decided that as many as possible will attend the adjourned meeting of council Tuesday night at which time a discussion will be held on the proposed Stevens plat as a site for the new North Elementary school. Council held up acceptance of the sub-division, last Tuesday, in order to study the plat and to discuss the school location with school board members

Kiddies' Safety Town to Open At Prospect School June 27

Safety Town will open for the pre-school-age children of Mansfield June 27 and will run through to Aug 19, Frend Boals and Stanley Kamen, announced today in a joint statement

Boals, Mansfield traffic commissioner, and Kamen, city recreation director, operate the juvenile "town" under the sponsorship of the Mansfield Police Recreation club and the Mansfield Recreation department.

Instead of moving from one school to another, as in previous years, Safety Town will operate for the entire eight-week period at the Prospect school grounds

An innovation of the "town" this year will be a course in safety practices encountered in the school itself, such as fire drills, in addition to the usual pedestrian and street-crossing safety practices stressed

Mothers who bring their children to Safety Town will have something to do themselves this year

Kamen announced a program of either sewing, cooking, or some card game instruction would be offered for the mothers at the same time the safety class is in operation The program will be "just what the mothers want," Kamen said, and the recreation department will set up any type of training class they desire

RICHMAN BROTHERS

You Can Save $10 to $15 on Your Next Suit of Clothes

It's a well known fact that there's a great difference in men's clothing values—that one clothier may offer suits and topcoats of same or similar quality for as much as $10 to $15 less than others.

It's all a matter of facilities, know-how, and business methods. Some dealers buy their clothes. We make our own. Some do a small volume of business with a large markup. We do a large volume with a small markup.

Some sell on credit, and have bookkeeping costs and losses from bad debts. We sell for cash. The money thus saved is passed on to you in finer clothes and lower prices.

There are additional ways of keeping prices down and quality up. We know and use them all, because we've been making clothes for seventy years, and have always specialized in VALUE-GIVING.

Can't Repair Bleachers In Galion Park

Board Gets Report Of 3 Contractors

GALION — A report from three Galion contractors that the bleachers at Heise park are beyond repair, was a major problem presented to the Galion Board of Education at its monthly meeting last night. Ivan Cass, John L. Walker and Wade Stevens were the Galion contractors who reported on the condition of the bleachers.

In addition to the report, the board awarded contracts for the purchase of school furniture for the South Elementary building. Eleven bids had been received and opened on April 7 at Supt. M. E. Shank's office.

The contracts will go to the Dobson-Evans company of Columbus for the bulk of the seats for the school; Miller Office Supply company of Piqua, was the successful bidder for student tables and Kyser Sales company of Warren for folding lunch-room tables.

Johnny Appleseed area, Boy Scouts of America, was granted use of the school's section of Heise park for the annual Camporal to be held June 16, 17, and 18. Galion District committee will be host for the Camporal.

The board also approved the request of the Galion Shrine club to close the schools early May 3 in order the youngsters may attend the Mills Brothers circus.

Board members decided that as many as possible will attend the adjourned meeting of council Tuesday night at which time a discussion will be held on the proposed Stevens plat as a site for the new North Elementary school. Council held up acceptance of the sub-division, last Tuesday, in order to study the plat and to discuss the school location with school board members.

Kiddies' Safety Town to Open At Prospect School June 27

Safety Town will open for the pre-school-age children of Mansfield June 27 and will run through to Aug. 19, Frend Boals and Stanley Kamen, announced today in a joint statement.

Boals, Mansfield traffic commissioner, and Kamen, city recreation director, operate the juvenile "town" under the sponsorship of the Mansfield Police Recreation club and the Mansfield Recreation department.

Instead of moving from one school to another, as in previous years, Safety Town will operate for the entire eight-week period at the Prospect school grounds.

An innovation of the "town" this year will be a course in safety practices encountered in the school itself, such as fire drills, in addition to the usual pedestrian and street-crossing safety practices stressed.

Mothers who bring their children to Safety Town will have something to do themselves this year.

Kamen announced a program of either sewing, cooking, or some card game instruction would be offered for the mothers at the same time the safety class is in operation. The program will be, "just what the mothers want," Kamen said, and the recreation department will set up any type of training class they desire.

Terrific Explosion Rocks L. A. Suburb

INGLEWOOD, Calif. —(AP)— A terrific explosion rocked this suburban Los Angeles city early today when a boiler blew up at the Basin Oil company's storage tank farm.

There were no known casualties.

A series of smaller blasts followed, believed to be power transformers. The blasts fired a gas main, shooting huge flames skyward. But firemen cut off the raw gas line into the plant to halt the blaze.

Mayor Orders Life Preservers Placed

COLUMBUS — (INS) — Columbus, plagued annually by a dozen or more suicide attempts and accidents, yesterday decided to place life-preservers on bridges across the Scioto river, which runs through the downtown section.

Mayor James A. Rhodes ordered Fire Chief Walter G. Strickfadden to place the floats in accessible places. He said:

"This precaution should be carried out before some would-be rescuer is drowned."

Crestline Driver Fined After Crash

GALION—George Blocker, 41, Crestline driver, was fined $20 and costs by Justice of the Peace Richard E. Riblet here on a charge of failing to yield the right of way at an intersection. Blocker was cited Wednesday by the highway patrol after his car crashed into another at nearby Leesville.

One of the two women injured in the collision, Mrs. Samuel Bickley, 67, of Sandusky, and wife of the driver of the other car, was released from City hospital yesterday. The other victim, Mrs. Anna Volk, 71, of Westfield, N. J., remains in the hospital with numerous fractures, bruises and lacerations.

A shutdown at the plant April 13 idled 60 workers.

A dispute between management and Local 293, of the Upholsterers International union (AFL) was settled yesterday.

Baha'i Group Elects Staff

The annual election of the Baha'i Spiritual Assembly of Mansfield was held at the home of Miss Alice Grabler, 244 South Diamond street, Thursday evening.

Elections are held by Baha'i groups all over the world on April 21, the date in 1863 that the founder of the religious group began his teachings.

Elected at the meeting were Lawrence Price, chairman; Mrs. Joseph Pival, vice chairman; Mrs. J. L. Hogan, secretary; and Miss Alice Grabler, treasurer.

Committees were elected for the coming year, and it was announced that Miss Grabler and Mrs. Rose Steinberg will attend the national convention at the Baha'i House of Worship in Wilmette, Ill.

Barring British From China

REDUCED to its simplest elements, the shelling of British warships in the Yangtze river is merely the Chinese communists' way of saying: "We are taking over here. Get out." And there is tragically little the British can do about it. They have not yet recovered from the last war; and they cannot risk a new one.

London will, in the normal course of events, demand an explanation and reparations. There will be some futile discussion. And the whole matter will probably be referred to the Court of International Justice at The Hague.

The International Court will then be faced with the problem of whether or not to refer the complaint to Moscow, which most of the world now recognizes as the directing point of the Chinese communist war. At this early date it is idle to speculate how the court will handle the case.

Right now, the question is: Will the British get out of China? There seems little else they can do without risking a full-scale war. Indeed, it is likely that not only the British but all Western powers will be forced to abandon their big commercial holdings in Shanghai and other areas, if the communists sweep all of south China as they appear determined to do.

However, since the Russians themselves cannot afford a war with the West, it is possible that eventually some concessions will be made. For example, the Western interests might retain their foothold in Hong Kong.

Developments in China plus persistent rumors that the Russians are ready to give up their unsuccessful blockade of Berlin, and perhaps even withdraw a few troops from Germany, would seem to indicate that all the recent shifting in the Moscow high command was a prelude to all-out Soviet drives in the Orient.

Such a thought could be over-simplification. The Russians might be only feinting toward the east in preparation for new moves toward the Mediterranean and the Atlantic. But it seems highly logical that, with a land army as their one big weapon, the Soviets will use their soldiers on the land mass of Asia where they are less likely to arouse the United States.

They could then bide their time for a showdown with the West until they have atomic bombs and an air force big enough to compete with what they know is facing them now from half-way around the world.

Don't Pay Money to Strangers

NOW THAT considerably more activity is being noted in house-to-house canvassing, customary complaints are being heard about methods employed by some of the persons engaged in this work.

Specifically, it appears that a quite intensive solicitation for magazine subscriptions is now in progress by out-of-town canvassers, some of whom base their appeal on sympathy, or efforts to win prizes, rather than on merits of the publications for which subscriptions are sought.

As has been said before, ample opportunity for placing magazine subscriptions is afforded by local business places and resident canvassers, with assurance of dependability, and this is being repeated merely to again urge caution in signing orders or paying money to strangers brought into the city to conduct such canvasses.

Attention has also been directed to resumption of canvassing for the sale of sets of encyclopedias, or reference books, and in this connection it is recommended that no such purchases be made without investigation of the merits of the books offered. Full information on this subject can be gained by inquiry at the Mansfield public library.

Joined a Pyramid Club Yet?

THERE SEEMED no reason, right from the beginning, why that Pyramid club craze should have dodged around Mansfield week after week without landing here.

Now, according to reports, it's on in full swing right here in town, and, as nearly as can be learned, there's nothing illegal about it—which makes it different from the other gambling rackets being operated here with administration sanction.

Anyhow, those who are drawn into the Pyramid club game are unlikely to lose more than a dollar or two, and the thrill of hoping that each of them will eventually cash in at the rate of around $1,000 for their dollar may compensate for their loss.

An ideal situation, of course, would be for everyone to fall for the Pyramid club gyp at the same time—so that the thing could get over with in a hurry.

Medical Care 'Best In World'

SPEAKING before the council of the New England state medical societies, Clem Whitaker had this to say about the medical care issue: "We have better medical care in this nation than in any other nation on the face of the globe—and we are well on the way, under our voluntary health insurance systems, to a solution of the problem of budget-basis protection for all who desire it.

"Certainly we don't need or want the assembly-line medical systems of sick Europe in healthy America. . . .

"If a man can afford to smoke, he can afford health insurance: the cost is about the same. If a family can afford to go to the movies once a week, that family can afford the finest kind of prepaid health protection."

Harry Wade concludes that: "When all is said and done, it usually turns out that Congress has just started."

One current definition of a dime is that it is a dollar with the taxes taken out.

What Some Other People Are Saying

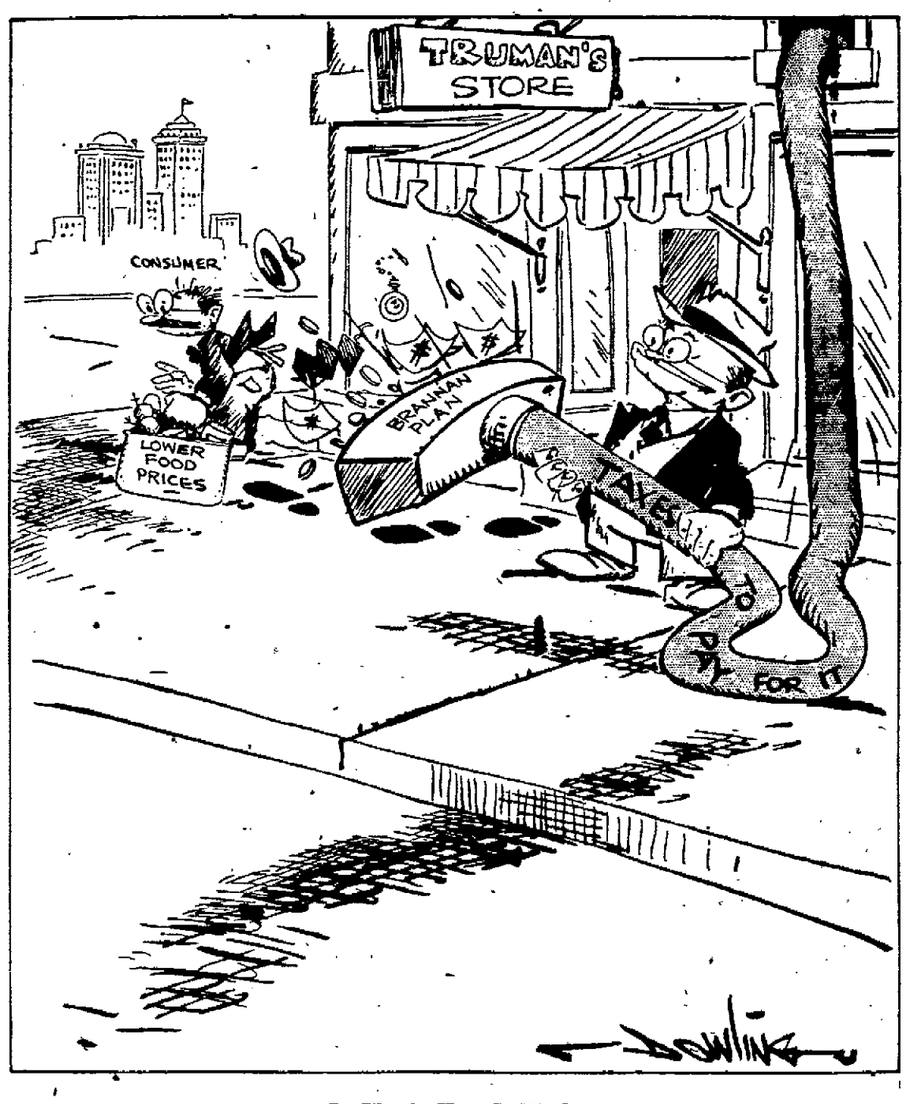
WINSTON CHURCHILL: "In this sombre century, with all of its scientific acquirements and proud boasting, mankind has been forced again to think in terms of finding its daily bread to keep alive."

* * *

DR. R. E. LAPP, atomic scientist and author of "Must We Hide": "American skyscraper cities like New York, are cities of the past, and cities such as Houston, which are rapidly developing skyscraper clusters, are becoming increasingly attractive targets for atomic attack."

* * *

SENATOR HOMER E. CAPEHART, Indiana Republican, in debate on public housing bill: "The federal government doesn't always take care of its property. Ultimately we may reach the time when another federal housing program will be needed to replace the slums built under this bill."



So That's How It Works.

Viewing the National Scene

Special Interests Active

By THOMAS L. STOKES

WASHINGTON — Something has been said here before about the double-barreled campaign of big industry and finance against progressive measures and progressive government policies in the public interest.

There is, first, the legislative arena in Congress where they are more active than ever, as daily events demonstrate. There is, second, the much-less-publicized field of government commissions created by Congress to administer, as agents of Congress, laws enacted by Congress to protect the public interest in one way or another. These commissions are servants of the public, not of special interests.

In this second field, big industrial and financial interests are alert today, as always, to mold these commissions on their particular and special viewpoint.

This they do by bringing pressure on the Senate for or against confirmation of appointments to such commissions by the President. Now, in two notable current cases, they are in opposition, for President Truman has been conscious of the public responsibility of these commissions in his appointees.

One, discussed here before, is his nomination of Thomas C. Buchanan of Pennsylvania to the Federal Power Commission, which is delegated to protect the public and consumer in electric and gas rates.

Electric and natural-gas utilities have been able to bottle up his nomination in the Senate interstate commerce committee for months. Mr. Buchanan aroused their enmity by his stand for the public interest, rather than their special interest, as a member of the Pennsylvania public utilities commission a few years ago.

* * *

Also Oppose Carson.

NOW the big special interests are starting to roll out their thunder through all the avenues of propaganda available to them against the President's appointment of John Carson to the Federal Trade Commission, the agency created by Congress in the Woodrow Wilson administration to administer statutes against monopoly and unfair trade practices, and thus protect the public and honest business.

Many of us have known John Carson for years—this reporter for a quarter of a century—as an able and thorough newspaperman with a passion for facts; as secretary to the late senator James Couzens (R., Mich.) for whom he was a strong right arm in effective and courageous public service; as consumer's counsel to the Bituminous Coal Commission, in which he was zealous for the public interest; and in recent years as director of research and information for the cooperative League of the United States, representing the now-well-established cooperative movement that has proved so successful for farmers and consumers.

John Carson's major crime seems to be intellectual curiosity which, it is true, is rare enough to arouse envy and suspicion, though it is the quality that has made our nation great and strong.

Another crime seems to be that he has been a public servant, in one capacity or another, all of his mature life. In that capacity he has learned the facts of our economic life, how inequalities are created and who creates them.

He knows too much for some of the big special interests, which prefer that the public not know too much about some of their operations.

John Carson is just the sort of eyes, ears, mind and conscience the public needs on the Federal Trade Commission. He is a symbol about which the public can rally in the continuing battle for economic justice.

He is a fine symbol because he is a scrapper in the best tradition of old-fashioned American progressivism, and his battle is all of ours.

Frankly Speaking

Showmanship In Senate

By JAMES MARLOW

WASHINGTON — "This is the greatest show on earth," the man said. He was sitting in the Senate gallery, watching for the first time the Senate at work.

After looking at it for years, I agree with him. Nothing in Washington compares with those 96 men shaping our age as they talk and act their way through the days, weeks and years.

No matter what they argue about, the stake is always human lives. For whatever they talk about it, it's going to affect people somewhere in some way, here or abroad, and maybe the future of the world.

It's the way it's done that holds the eye: Dramatics, calm reasoning, shouting that blurs the ear, sarcasm, fast - thinking, courtesy, old-fashioned oratory, stuffy oratory.

Senator Kem, for instance, the Missouri Republican, sits up ramrod straight, conspicuous by his snow-white hair, his eyes following everything, his head almost not moving. He talks without flourishes.

It's different with Senator Tom Connally, the Texas Democrat who has an actor's hair curling over his collar. He gets enthusiastic when he talks, parades up and down the aisles, wags his fingers, and prances around in mimicry of what someone has just said on the floor. He's the Senate's mimic. His oratory: Sometimes straightaway, sometimes old-fashioned.

The real power is turned on by Senator Langer, North Dakota Republican. When he gets going his arms wave. He pounds the desks, bends almost double, and shouts loud and fast.

* * *

Variety of Mannerisms.

RUMOR says Senator Wherry, Nebraskan and leader of the Republicans, wants to be president. He boils with energy, bounces up and down out of his seat in debate, thrusts his chin to emphasize what's on his mind.

Senator Douglas, Illinois Democrat, almost forces his opponents to be calm and courteous and reasonable by the calmness, courtesy and reasonableness he turns against them.

The others pay close attention when Senator Vandenberg, Michigan Republican, takes the floor. He has a high, wide forehead, great earnestness in debate, and loud voice. He doesn't talk often but when he does get up, he's generally armed with a beautifully organized speech, all written down on paper before him.

Worry seems to run across the face of the Democratic leader, Senator Lucas of Illinois. Maybe that's because of the deep lines extending down around his mouth from his nose; or maybe it's because his Democrats aren't showing the speed he'd like in pushing President Truman's program through.

One of the best and sharpest talkers of them all is Senator Pepper, Florida Democrat. From the front, when he gets up to face someone, he looks calm and relaxed.

But the galleryites behind can see he's tense because he always holds one hand behind him, out of sight of his opponent, and the fingers rub furiously against one another.

Recently an Indiana Republican, Senator Jenner, tried to needle Pepper by pointing out that Pepper has changed some of his thinking in the last decade. "O, consistency, thou art a jewel," Jenner said, reproachfully.

Pepper shot back:

"The 'Consistency, thou art a jewel' quotation must be put alongside the question of, I believe, Emerson, who said:

"'A foolish consistency is the hobgoblin of little minds, adored by little statesmen and philosophers, and divines.'"

Jenner retired to the sidelines for a while.

Washington Merry-Go-Round

Help By A. F. of L. Needed In Probe

By DREW PEARSON

WASHINGTON — The more you probe into the record of the late George Berry, president of the Pressman's Union, the smellier the mess becomes. Also, the more difficult becomes the job of union locals to clean up the mess.

Five locals have now asked for a thorough investigation of Berry's will and the manner in which he robbed his own union. They are: San Francisco, Seattle, Indianapolis, Washington, and the chapel of the New York World-Telegram.

However, the union's executives, who long let Berry get away with almost anything he wanted from the union's treasury, want to conduct the probe in their own way. They don't appear happy about outside interest.

However, for the sake of all other honest labor unions in the USA, the case of the Pressman's Union appears to be one where President Green of the A. F. of L. should appoint a trusted A. F. of L. attorney to work with the justice department in protecting the rights of all union members.

Otherwise, it will be very difficult for union locals to act. For here is an illustration of what happened in the past when one local challenged the honesty of president Berry.

In 1920, the Chicago local of the union did challenge Berry, accusing him of using union funds to finance the Clinchfield, Tenn., Hydroelectric Corporation, which Berry owned. The Chicago local sued, proved its case and got a $165,000 judgment against Berry, in the course of which U. S. District Judge A. M. J. Cochran said:

"It may be that in their wisdom, the union members may want Mr. Berry still to rule over them notwithstanding the findings made here. In the convention he said that the ions would fight like hell. T describes him. He has fou like hell in this case to k the truth from being know

Berry Was Czar

THE aftermath of this c however, was most signific Though the judge rendere $165,000 judgment against ry, it was never paid. Since controlled the union, the ju ment was forgiven.

Furthermore, the Chicago cal which brought the suit penalized. The union officers charge were thrown out an steward was appointed by ry to run the union.

For years afterward, Be ran the Chicago local thro a steward. This he had the p er to do under the union's laws.

Meanwhile, the U. S. treasu files against Berry are alm unbelievable. The pressm head was given one year jail for income-tax evasion, since he threw himself on mercy of the court, the gove ment did not have to prove case and none of the amaz details were ever published

However, one of the unl lievable ways in which Ber cheated his own union was buying a hunting lodge in Ca ada out of union funds f $7,500. Then he sold it ba to the union for $24,000.

In other words he sold to union a hunting lodge whic already owned, and pocketed price—$24,000.

Berry and other union exe tives were also allowed $9 day for traveling expenses. H ever, they construed this mean $9 a day whether t were traveling or not, and ry drew that amount every even while at home.

However, when he trave he had the hotel bill sent the union so that he collec twice. This was in addition the $9 a day.

Between the years 1926 1941 Berry reported an inco of $74,000. However, the U treasury, checking up on his venue, arrived at the figure $842,000 instead. And when t prosecuted Berry for income-evasion, it is interesting to r that Berry dipped into the ion treasury to pay his defe attorney's fees—to the tune $100,000.

In other words the union p the expense of defending B ry for cheating the union.

Note—One reason for Berr heavy expenses was that he supporting two Mrs. Berrys—own wife, and a Mrs. Alva B ry, who lived on one of his ne by farms in Tennessee.

Assignment: America

Basque Sheep-Herders

By INEZ ROBB

NEW YORK — Americans go to college nowadays to become morticians, bartenders, barbers, taxidermists, chiropractors, rumba experts and beauticians.

But no American in this generation willingly studies to be a sheep-herder, a job that can be learned on the cuff from any old timer in a few easy lessons.

Learned, that is, if a man is a misogynist who likes solitude, solitaire, sheep and his own cooking. This is a hard combination to come by. Some American men like solitude, some like solitaire and some even can abide their own cooking, but hardly any develop a toleration of sheep en masse.

As a result, the United States Congress has just labored and brought forth a bill to enable 48 Basque sheep-herders, now plying their trade in Nevada, to remain in the United States and become citizens without further shennanigans with the immigration service.

Nevada, like the rest of the sheep-raising west, is so desperate for sheep chaperones that the threatened loss of even 48 men willing and able to baby-sit with sheep looms as a major crisis.

This congressional absorption with Basque sheep-herders interested me no little. I grew up in Boise, Idaho, which had, I believe, the largest Basque colony outside the Spanish Pyrenees.

* * *

How It All Started.

THE BASQUES, an ancient people whose racial beginnings are lost in the mist of time, are not much given to wandering from home. But a trickle of immigration began three or four generations ago, with the trickle heading straight for Idaho where the lovely, jagged mountains reminded the men of their own Pyrenees.

Also, there were sheep in them thar hills. And if it is possible to love an animal with the I. Q. of a sheep, the Basques do. Even three or four generations ago in Idaho, it was difficult to twist a native arm long enough to get its owner to herd sheep.

At best it is a lonely life, with men going into the mountains for months on end with their flocks, a dog or two, a sack of flour, a can of baking powder, coffee, a side of bacon, a bedding roll and a Sears Roebuck catalogue, the traveling library of the sheep country.

The Basques were ready-made for the job. They asked only a subsistence wage and a certain percentage of the lambs each spring.

Sheep owners were charmed. What they entirely overlooked was the fact that within ten years, the Basque usually owned a flock as large as his employer and quit to become an American sheepman and capitalist.

Gradually, the Basques spilled over from Idaho into other sheep raising states, notably Montana and Nevada. Many have become substantial flock masters, among the largest in the west.

Always they have been hospitable, honest, industrious, proud as lucifer and graceful as fauns. In a nation composed entirely of immigrants and their descendants, the Basques have added a small but rich strain.

The chief social event in Boise today is the annual sheep-herders ball, staged between Christmas and New Year's by the Basque colony.

It is comparable to the debutantes cotillion in New York and the St. Cecilia ball in Charleston, with the single exception that the tickets are harder to come by.

Basques come from all over the west to attend. The dance, in true Basque tradition that no party is worthy of the name that doesn't last 48 hours, is usually good for two days. Then, before the sheep-herders depart for another lonely year in the mountain fastnesses, there is a farewell dance.

It usually takes Boise about six months to recover.

Farmer's Diary

Weasel Versus Rabbit

By CALVIN A. BYERS

THIS EVENING while pruning apple trees, I was eyewitness to a strange sight. The soil in the grove is sandy, underlaid with sandstone shale. I was working on a large vigorous tree when I heard a loose stone rattling just above my feet.

I dropped my shears, hung my arms at the sides, to rest, and stood still, alerted to the spot where I heard the movement. A hole in the ground suggested that a snake might emerge to greet the warm afternoon sunshine.

I waited, wondering, for quite a few minutes, but saw nor heard anything. Suddenly I noticed a dark pointed nose emerge from the hole in the ground — then a gray-reddish face and fierce daggerlike eyes. The head protruded sharply, darting from side to side. A curled, sneering lip, a fierce satanic look, that was dangerous and foreboding.

Screened from this lair, a timid rabbit reared up on its haunches unmindful of an enemy so near until the instant the large dark liquid eyes discovered the snake-like motion.

Then I saw the furry body drop flat among the weeds and lie prone on the sandy soil, shivering with fear, then freezing as if to stone.

The weasel had discovered the rabbit, too. After a moment the long sleek body eased silently out of its hole and slipped clear into the open toward where the rabbit cowered, mouth half shut, watching every movement of its killer with fixed eyes.

My sympathy was with the defenceless bunny. I had in my hand a long flexible apple branch that I had just pruned, and I took one step and brought it down heavily upon the weasel's back. He writhed in pained surprise, showed his teeth, and made a penetrating dank stench that seemed to saturate the whole atmosphere. Then he was gone, though where he went I could not be sure.

I watched the rabbit, panting with belly on the soil and moisture dropping from the end of its red, shaking tongue. As the fear went away, it began to graze again upon the tender clumps of green grass that were about it.

A soft mound of last year's growth indicated where a young family of rabbits might be sleeping. Wisely the mother made no effort to return to her nursing brood. The fright she had had might be poison to her hungry youngsters.

Even a doe or a heifer will not feed its offspring after a severe fright or struggle. It is a natural moral law that protects babies of the wild.

One Man's Opinion

IT'S SURPRISING that Franklin D. Roosevelt jr., wants to go to Congress . . . doesn't seem like the kind of fellow to deliberately seek obscurity.

Freshmen Congressmen speak only when spoken to and draw committee assignments like "public lands" or "marine and fisheries."

In fact, one fellow who went to Congress two terms ago is still sending franked flatfish to his friends.

He ran for Congress to help shape our foreign policy and they have him fileting flounders.

Next term he expects to be promoted to "Indian affairs" and he's working up his maiden speech with a smoky fire and a blanket.

Anyway Franklin is running on the liberal party ticket . . . New York City has so many Democrats in Congress now, he thought he'd like to be different.

Industry Sounds Call to Arms Against New Senate Measure

Tax Change Urged In Latest Bill

Would Boost Machinery Taxes

COLUMBUS — (INS) — Ohio industry ganged up today on a new Senate bill which might cost them 80 million dollars a year more in personal property taxes.

The bill was tossed in the Senate hopper by Sen. Howard M. Metzenbaum (D-Cleveland) and would require that all personal property be taxed at its nominal full value. Thus, Metzenbaum would place personal property on the same tax basis as real estate.

At present, personal property used in business is taxed at 70 per cent of its value, while machinery is taxed at only 50 per cent.

Metzenbaum said his bill was the result of several supreme court decisions which hold that special use structures, such as pottery kilns, blast furnaces and oil refineries, are personal property, taxable at 50 per cent, and not real property. Until the court's decision they had been taxed as real estate, at full value.

The administration of Governor Lausche is admittedly concerned about this loss of property tax revenue, but Metzenbaum insisted that, "This is my personal bill."

Lausche may object to the Metzenbaum measure as a violation of his pledge of "no new taxes." It was felt in some circles that he would prefer a re-definition of what constitutes real and personal property.

The latter proposal would replace special use structures in the real property tax field, and keep additional items there. It has been stated that the court decision, if left untouched by new law, could result even in the property of railroads, including rights-of-way, being taxed as personal property at only half its value.

As the result of the high court's decisions, Metzenbaum said, "home owners of Ohio are faced with the prospect of increased real property taxes."

Physician's Trial Set

ASHLAND — Dr. Wayne E. Young, Mifflin physician indicted for criminal abortion, will be tried by a three-judge court here Monday, May 23.

The date was set after the judges heard evidence from Lima state hospital determining the doctor to be legally sane after a 30-day study of the man.

Dr. R. E. Bushong and Dr. Richard L. Johnson of the Lima hospital testified at the preliminary hearing held after Dr. Young was returned here from Lima.

The physician, formerly of Mansfield, is free under $1,000 bond awaiting trial. The three judge court includes Judges H. E. Culbertson, Judge Ralph Sugrue and Judge William A. Hunt, all assigned to the trial by the Ohio chief justice. Dr. Young had waived trail by jury.

Award 2 Vet Housing Painting Contracts

Contract for exterior painting of the two veterans' housing projects on Grace and South Diamond streets was awarded today to Russell C. Sprunger.

E. R. Friday, secretary-director of the Mansfield Metropolitan Housing Authority, said Sprunger turned in the lower of two bids submitted on the job.

Sprunger bid $1,900. Laser and Walker, only other competitor for the job, turned in a bid of $2,644.

last year while two of the state's ranking pole vaulters — Don Cline, Mansfield and Bob Phelps, Akron Buchtel, will continue the battle which saw them tie last year for fifth. Phelps broke all existing Akron records this year with a vault of 12 feet, 5 inches.

HIGH HURDLES TOPS

Jim Heitikko, Conneaut, who was second in the 1947 Relays' discus throw, bettered the existing state record with a heave of 153 feet, 3 inches Wednesday. However, on the same day, Gene Strathman, Brush high school, tossed the "platter" 159 feet, two inches. Strathman was fourth here last year and holds the state mark of 152 feet, nine inches.

But the high hurdles race looms as tops. Gene Stevenson, Springfield; Russ Henderson, Dayton Dunbar and Ed McCadden, Cleveland East Tech. all were placers in 1947 are in the race. Then, too, there is A. C. Jenkins, Mansfield; Bill Hairston, Columbus Central, and Tom Johnson, Donora.

All six are capable of breaking the Relays record of 14.9 seconds. Jenkins and McCadden have run the high sticks in 15 flat this season with the others within two-tenths of a second.

Cleveland West Tech won the mile relay last year in 3:36.6 and Lima Central has raced the distance in 3:35 this season.

So it goes through all the events. Lithe and limber stars abound on every team. For the youngsters who have not reached stardom the Relays once again will give them the opportunity to watch the top names in action and thus improve their own form and ability through adaptation.

Harry Mehock, who founded the Mansfield Relays in 1927, again directs the event this year.

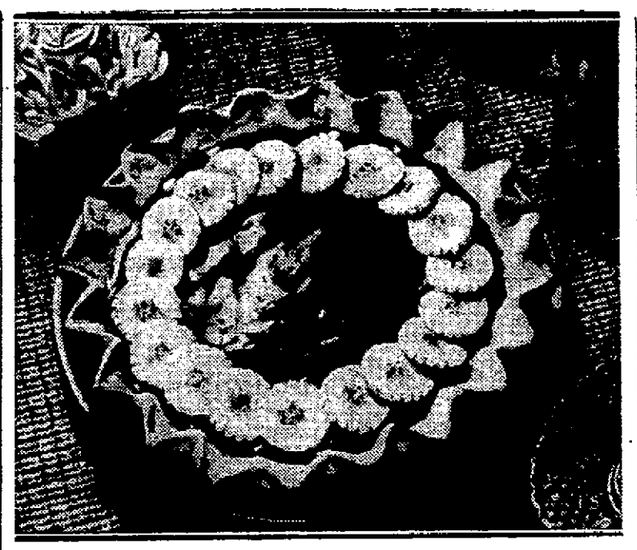
Horoscope

For Saturday, April 23
By GENEVIEVE KEMBLE

THIS is a most propitious day for furthering the interests along all lines of aspiration, and ambitions for the promotion of cherished desires, hopes and wishes in purely personal as well as business relations. In business the mind is keen and astute, with probable urges to make changes, adopt new tactics, make new contracts or agreements, in which promotion, preference and professional prestige may be energetically sought. Social, domestic and romantic ties may figure in increasing pleasure and festive activities. Travel, trips, parties and calmer joys call for celebration over the weekend.

For the Birthday

Those whose birthday it is are assured a happy, progressive and interesting year, in which there may be pleasant adventure in employment, enhanced opportunity, friendly relations with influential personages, as well as in the gracious field of home or romantic doings. It is a propitious time for pushing the interests and aspirations along all cherished lines, with energy, verve and ultimate gratification.



Budget - minded housewives know they can serve inexpensive meals and turn them into feasts by the trick of serving hearty, tempting desserts. Every man has a weakness for pie, and the plainest meal will wind up with a flourish when you produce this delicious butterscotch-banana pie. It's a good recipe to keep on file for the night when you are serving leftovers for dinner.

Butterscotch-Banana Pie.

3 egg yolks, beaten
2¼ cups milk
1½ cups light brown sugar
¼ teaspoon salt
1-3 cup flour
¼ cup butter or margarine
1 teaspoon vanilla
2 bananas, sliced

Combine egg yolks and milk. In the top of a double boiler combine brown sugar, salt, flour and butter. Add egg-milk mixture gradually. Stir over boiling water until smooth and thickened. Cover; cook 15 minutes longer, stirring occasionally. Cool; add vanilla. Arrange alternate layers of filling and sliced bananas in baked 9-inch pie shell. Garnish top with a ring of banana slices. Serve with sweetened, flavored whipped cream.

If desired, omit bananas and whipped cream and top the pie with a meringue. Beat the whites of 3 eggs with a dash of salt until stiff, but not dry. Gradually beat in 6 tablespoons of granulated sugar. Continue beating until smooth and glossy. Pile lightly on the thoroughly cooled pie. Seal the edge of the meringue to the pastry to prevent it from shrinking. Bake in a slow oven (300°F.) about 30 minutes. Makes enough meringue for one 9-inch pie.

There is sign of gayety, change, youthful and stirring ventures and fulfillments.

A child born on this day will possess many faculties, talents, ambitions and generous equipment for a pleasant, adventurous and progressive career, in business, employment and social contacts.

You can determine whether a fabric contains acetate by buying a bottle of acetone at your drugstore and applying a drop of it to a hidden part of the garment, such as an inner seam. If fabric becomes sticky and then hardens as acetone evaporates you will know that acetate is present. In that case special cleaning methods must be employed.

LOST 40 LBS. ADELPHIA LADY PRAISES RENNEL

Here's what Mrs. Mildred Brokaw, Box 242, Adelphi, Ohio writes us. "I am 30 years old, 5 ft. 3 inches tall and when I started taking Rennel weighed 175 lbs. I always had a miserable stuffed-up feeling and could hardly stoop to tie my shoes. Thanks to Rennel I now weigh 135 lbs., feel fine and look better. My dress size has changed from 40 to 16. I have recommended it to all my friends."

Imagine, eat plenty and lose weight with this simple yet effective amazing home recipe. After purchasing a bottle of Rennel from your druggist pour the contents into a pint bottle and add enough grapefruit juice to fill bottle. Take two tablespoonsful twice a day. That's all there is to it. No diets to complicate your meal planning. No expensive vitamins to fortify your system from weakness while going without food for you can eat normally. If the very first bottle doesn't show the simple, easy way to lose pounds of bulky fat and help regain slender, more youthful curves—if reducible excess fat doesn't seem to disappear almost like magic just return the empty bottle to the manufacturer for your money back. Don't be switched to another product, insist on genuine Rennel.

When teen-agers are making fudge they might like to try adding marshmallows to it rather than nutmeats. The marshmallows should be cut into quarters with a wet knife or scissors and be added just before the fudge is ready to be poured into the pan.

LOST 40 LBS. ADELPHIA LADY PRAISES RENNEL

Here's what Mrs. Mildred Brokaw, Box 242, Adelphi, Ohio writes us. "I am 30 years old, 5 ft. 3 inches tall and when I started taking Rennel weighed 175 lbs. I always had a miserable stuffed-up feeling and could hardly stoop to tie my shoes. Thanks to Rennel I now weigh 135 lbs., feel fine and look better. My dress size has changed from 40 to 16. I have recommended it to all my friends."

Imagine, eat plenty and lose weight with this simple yet effective amazing home recipe. After purchasing a bottle of Rennel from your druggist pour the contents into a pint bottle and add enough grapefruit juice to fill bottle. Take two tablespoonsful twice a day. That's all there is to it. No diets to complicate your meal planning. No expensive vitamins to fortify your system from weakness while going without food for you can eat normally. If the very first bottle doesn't show the simple, easy way to lose pounds of bulky fat and help regain slender, more youthful curves—if reducible excess fat doesn't seem to disappear almost like magic just return the empty bottle to the manufacturer for your money back. Don't be switched to another product, insist on genuine Rennel.

Home Magic Lauded For Children

There's magic in magic for instilling self-confidence in a child. Take that on the word of an expert, Alfred Fletcher, who left a stage career to devote himself to aiding children through educational toys. Fletcher was known professionally as "Chandu," a name that became nationally famous through a popular radio program of some years back.

Now on the staff of A. C. Gilbert, the toy tycoon, Fletcher helps develop foolproof tricks for youngsters' magic sets.

Magic helps mould character, personality and facile speech says the veteran performer.

Boys or girls who can do even one or two simple but mystifying tricks show pride and swelling confidence almost immediately. As youngsters develop dexterity, they want to be able to present their tricks properly and develop "patter," amusing talk essential to good performance.

Patter suggestions are included in magic sets. Fletcher adds he knows of no other medium that can do so much in bringing even seemingly backward children out of their shells.

Magic sets still are a pet project of A. C. Gilbert, whose interest in educational toys first was fostered as a boy magician. Later, as a college undergraduate, he started manufacturing foolproof tricks that could make an amateur a polished performer. From this start has grown his world-famed toy empire.

At 88 and 83, They Like Hospital Plan

Sisters Taught Thousands In Mansfield

When two retired Mansfield school teachers signed up for Blue Cross hospitalization and Blue Shield surgical care, they were repeating an event of 20 years ago.

The sisters are Miss Bertha Ruess, 83, and Miss Sophie P. Ruess, 88, both of 126 South Main street.

In 1929 a group of Dallas, Tex., school teachers decided if they put a few pennies a day into a "kitty", the fund would pay all their hospital bills for as long as they lived. The Blue Cross plan, to which the Ruess sisters subscribed, grew out of that idea.

The Ruess sisters were Civil War babies, both born in Mansfield. Miss Sophie was born Feb. 12, 1861, the year the war broke out, and Miss Bertha Dec. 28, 1865, the year the war ended.

Their father, Dr. Henry Ruess, was one of Mansfield's early settlers. He began his practice here in 1859.

Miss Bertha retired in 1935, after 50 years of teaching. She taught at Hedges school, and from 1894 on she taught German and English at Senior high school. Miss Sophie's career, which ended in 1918, was similar to her sister's. They are remembered and respected by thousands who were their pupils.

The Ruess sisters signed up for the hospitalization plan during the community enrollment now being conducted in Mansfield. The two enrollment stations, at the M. O'Neil company and the Farmers Bank building, will accept new members through Saturday, the date when the extended drive is scheduled to end.

Other older Mansfielders who have signed up for the plan is Mrs. Mary R. Trine, 495 Forest street. Mrs. Trine, who is a widow, will be 92, June 11.

John F. Bear, 86 West Second street, pointed out he is "89' years young" as he subscribes to the plan. Bear is single and retired.

RETIRED—Miss Sophie Ruess, 88, left, and her sister, Miss Bertha, 83.

Mrs. Molnar, mother of two children, is expecting another child.

Warn Against Use of DDT In Spraying Dairy Cattle, Barns

WASHINGTON — (AP) — A new Agriculture department order is aimed at keeping all traces of DDT out of the U. S. milk supply.

Officials say very small amounts of the insecticide are not alarming, but they want to keep the total amount in all food as low as possible.

Experiments have shown that DDT may appear in the milk of dairy animals after it is used on them or their feed.

W. G. Reed, chief of the livestock insecticide division of the agriculture department's production and marketing administration, has notified insectidice man manufacturers not to recommend DDT for use:

1. On dairy animals.
2. On feed consumed by dairy cows or animals being fed for slaughter.
3. As a residual spray in dairy barns. Residual sprays are ones that last indefinitely, clinging to walls, floors, etc.

This means that the labels on any DDT shipment in interstate commerce may not contain recommendations that the insecticide be used for these three purposes. Labels now are being revised.

The Department of Agriculture also has revised its recommendations to farmers and is telling them not to use DDT on dairy cows.

Thus DDT, one of the most widely publicized fly killers, is being relieved of one of its major assignments — killing flies and insects around dairy barns and milk processing plants.

Other insecticides which may be used in dairies are good fly killers but do not appear in significant amounts in the milk of the animals.

The Department of Agriculture is recommending the use of Pyrethrum, an old, well-known insecticide, and some newer bug killers on dairy cattle. One of the newer compounds is piperonyl butoxide, which increases the killing power of pyrethrum. A good supply of this insecticide is available, agriculture officials say, but there may be shortages in a few areas.

Another new insecticide, methoxychlor, also is recommended for dairy cattle.

Reds Launch Drive for Mine Union

Jap Communists Follow 'Pattern'

TOKYO —(AP)— The communists have launched a drive to take over the 400,000 organized coal miners in Japan.

General MacArthur's occupation labor advisers say the move is following the classic pattern of Red infiltration. They admit it is well planned and timely, but they are not convinced it will be successful.

This is how the communist campaign developed:

In 1947, Japan had 360,000 coal diggers. They all belonged to the National council of Coal Mine Workers Unions. It was a federation rather than a union.

The council negotiated the first postwar wage contract with coal operators. Then internal troubles set in. The federation collapsed.

By the start of 1948, two miners' unions had emerged from the old council. Pro-communist Zensekitan had 160,000 members. Anti-communist Tanro had 200,000.

Almost immediately Zensekitan began talking "united front" and "merger" to the anti-communist group. Tanro resisted.

The communists kept up the pressure. Finally, Tanro agreed to a joint committee to negotiate a 1948-49 wage contract.

Two months ago Zensekitan came up with a new proposition. It would dissolve itself and its members would join Tanro on Tanro's terms.

Tanro replied it would accept Zensekitan members — on these conditions: the Red-led union's members must come in at the local level and their entrance into Tanro must be approved by Tanro locals; Zensekitan locals must accept the Tanro constitution.

The pro-communists leaped at the chance. They dissolved Zensekitan down to a local basis. Individuals have begun joining Tanro.

This comes at a time when a joint Tanro - Zensekitan committee is negotiating a new contract with coal operators.

The operators — facing a reduced government subsidy for the coming year — probably will not be able to meet the miners' demands for more pay.

This could give the communists their opening.

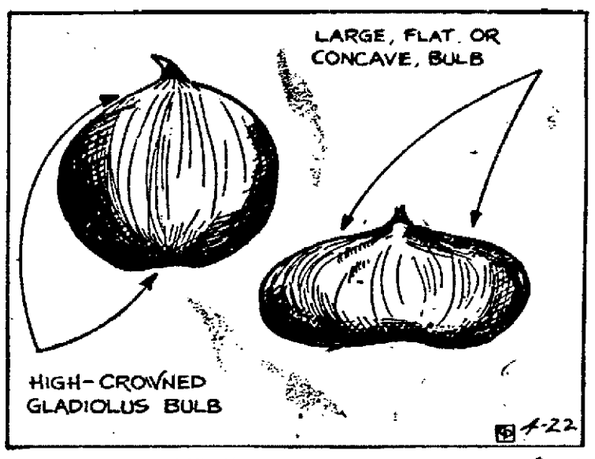
How to Select 'Glad' Bulbs



By DEAN HALLIDAY
(By Central Press)

"Glads" not only are the glamor flowers of the home garden but are popular for many practical reasons.

They can be grown successfully in every section of the country, and their ease of culture, range of vivid colors, as well as delicate tints, make them desirable not only for the garden but also for use as cut flowers indoors.

Among other things, do not be lured by size alone when purchasing gladiolus bulbs. A high crowned bulb, such as shown in the accompanying Garden-Graph, is a much better buy than a large, but flat or concave bulb, as also illustrated.

Avoid planting bulbs that are several years old. Younger bulbs will shoot into bloom earlier and will grow with more vigor. Pick bulbs over carefully to make sure there are no signs of disease.

Thrips can cause serious injury to gladiolus blooms and foliage. They suck the sap or plant's life juices.

Dust bulbs now with DDT to free them of thrips, if you have not already done so. No special equipment is required. Coat the bulbs by shaking them in a bag containing a 2 to 5 per cent DDT dust. The corms should be dry, but do not have to be peeled or cleaned. Use of liquid forms of DDT is not recommended for this treatment.

One ounce of dust is enough for a bushel of bulbs. The treatment can be used effectively up to two weeks before planting bulbs.

When gladiolus spikes are about a foot high, a sprinkling of sheep manure on the soil about them will stimulate growth. Another feeding just before the plants bloom will assure extra large flowers. Do this only after a rain, or following a thorough soaking of the soil.

Prehistoric kangaroos were 12 to 20 feet tall, but the biggest living specimens are seven to eight feet tall.

Presents for Hospitalized Kids Show Soft Side of Famed Flier

FACES ABOUT TOWN: Capt. Eddie Rickenbacker cabbing to Bellevue hospital, loaded with gifts he brings to the tots regularly. . . . Gary Cooper meeting Bette Davis's 2-year-old cutie in the park. . . . Clifton Webb returning the smiles of recognition to passersby along 5th Avenue. . . . "Champion" Kirk Douglas, who will probably be recognized by more citizens than the real champ Joe Louis, who never made a click film.

Bill Callahan of "As the Girls Go" eating matzoths in Lindy's with bacon-and-eggs! . . . Andrei Gromyko trying his darndest to enjoy his decadent capitalistic dinner at swanky Le Mirliton.

Margaret Truman, better looking than her news-pictures, at "Kiss Me, Kate" for the 4th time. Guess she likes it. . . . Zanuck director Otto Preminger ("Go away! Your head shines in my face!") at Sardi's. . . . Burt Lancaster, who made 500 one-dollar wagers that "it'll be a girl." . . . Steve Brodie, (a click in "Home of the Brave"), who demands that none of the publicity refer to him as Lois Andrews' ex-husband.

Sallies in Our Alley: At Club Bagatelle the other night Dorothy Ross rocked 'em when she yelled at zillionaire Joseph E. Davies: "I didn't recognize you without your yacht!"

Jack Gilford says he put $2 on a horse that ran "as though he was balancing it!" . . . One of Cerf's pals reported that he jeers at his critics. . . . "Hmf," hmf'd Buddy Weed, "a plajeerist!"

Bigtown Sideshow: They are still telling stories and quips about showman J. Leventhal, who passed the other day. His specialty was Broadway shows for the "poor folks," peopled with actors who took small wages. . . . Mr. Leventhal had difficulty pronouncing the word "little," which always came out "lilla."

He told one hambo: "I got a lilla show, this is a lilla part, I can only make a lilla-money and I gotta pay you a lilla salary" . . . The actor made for the door . . . "What you want," he said, "is a lilla-putian."

Memos of a Midnighter: "The Madwoman of Chaillot," which got mixed notices, won the critics' award as the best foreign play over "Edward, My Son," which got a unanimously good press. You figger it out. . . . Mabel Boll's groom and brother may take their war over her fabulous gems to the courts.

Wealthy producer T. E. Hambleton married his pretty Girl Friday, Merle Hopkins. . . . Elsa, the name-dropper, twice called Arthur Hornblow—Hornblower. . . . They say the score by Jule Styne and Leo Robin for next Fall's musical, "Gents Prefer Blondes," hits the high level of current musical clicks.

Kirk Douglas would be amazed at his double running a Roney elevator. Perfect for your stand-in, Kirk. . . . Steak in the big chopperies is down to $3.50, but some places still charge $4.50 and wonder why biz is bad.

Midtown Vignette: Reviewer Robert Coleman (a citizen who cooperates with the law) slowed down to ask a 44th street traffic cop: "Is it okay for me to park here awhile? . . . "No, it ain't!" was the snapper. "Keep going or you'll get a ticket" . . . "But," said Robert, "what about those cars parked over there?" . . . "They didn't ask me," was the retort.

Indelicate Burp Teaches Cancer Stricken Victims to Talk Again

IN A SMALL HOSPITAL lecture room a dozen adults were earnestly trying to burp together.

"Come on, out with it now!" urged their teacher, a big, genial, florid-faced man with a scar on his throat.

"Buh - buh - buh—uhrrrrp!" said the class.

"Fine, said the big man. "Now—buh - buh - buh - buh buy!"

"Buh - buh - buh - buh - buy!"

"Good. Now—buh - buh - buh-boy! And put your body into it."

"Buh - buh - buh - boy!" chanted the class.

Each of the ten men and two women in the class had a scar on the throat. Each had survived an operation for cancer of the larynx — the late Damon Runyon's ailment. Each had lost his voice box.

One night a week they came to this class and struggled to learn to talk again. And they did it by first learning to burp.

"A burp is different from a belch," explained their teacher, Dan Meenan, a former Wall street broker who also used to coach basketball at Columbia university.

"A belch is unvoluntary. It comes from the stomach. The burp is voluntary. It comes from the esophagus. You just have to make your gullet take the place of your voice box.

"Swallow some air. Then force it from your stomach up through your esophagus. Once you learn to make this burp sound, your tongue, teeth and lips can take it over. They can shape this one sound into any word you ever knew."

Most of the class were middle-aged or elderly. Cancer of the larynx rarely strikes young people. In the class were a truckdriver, a factory worker, a white-haired Irish factory supervisor, a retired woman school-teacher, a Tennessee housewife, a 64-year-old textile manufacturer.

One by one they got up and made progress reports.

"I have gone . . . back to work . . . on the same job I held . . . for 37 years," said a small elderly man who worked for a public utilities company. "I even use . . . the telephone . . . now."

A grinning salesman of ship supplies boasted:

"I'm selling again. . . . just as before. Business is . . . good. . . too."

"But do you still practise your exercises?" demanded Meenan.

"I don't have to," the salesman defended himself. "I talk all day long. as it is."

The class laughed like any group of schoolkids who have one over on the teacher. Meenan laughed with them.

Then he made the shy housewife get up and recite a Shakespearean sonnet" "Shall I Compare Thee to a Summer's Day?"

This was a real achievement. The class burst into applause.

"You shouldn't have made me do it," said the pleased housewife. "It was too hard."

Meenan laughed again. For only a few months ago this same woman had come to him for help — completely voiceless.

Then the white-haired Irishman got up. He had met more trouble than anyone in the class in learning to make the key burp sound. But now he confidently led them in recitations of nursery rhymes — "Humpty Dumpty," "three Blind Mice," and "Old King Cole."

"Remember what I had you say first to make you relax?" asked Meenan.

"Aw, to hell . . . with it!" smiled the Irishman. That was the favorite phrase of the class when they began to tense up.

"To hell with it!" they all said joyously.

The class ended by singing "East Side, West Side," together. They were led by the textile manufacturer, who only a few weeks before had been so depressed he refused to go to his business.

'Dark Horse' Seen Royall's Successor

WASHINGTON —(INS)— President Truman is expected to name a "dark horse" as successor to Army Secretary Kenneth Royall whose long pending resignation has been accepted effective April 27.

This is the opinion expressed today in the defense department where there is much speculation but no one can come up with a logical appointee.

Mr. Truman indicated at his news conference that there may be some delay in naming Royall's successor.

Leaders Call On Chiang

British Ship Still Trapped

NANKING — (AP) — South Yangtze valley ports, cities and towns fell like clay pigeons today before a mounting Red onslaught.

So weak was government opposition that wholesale desertions to the communists were feared. Foreign military observers said a general troop withdrawal may have been ordered.

Nanking was fast emptying of officialdom.

Acting President Li Tsung-Jen, Premier Ho Ying-Chin and Gen. Pai Chung-Hsi, commander of the central front, flew to Hangchow for an important meeting with retired President Chiang Kai-Shek. Chiang may be asked to take over the government again.

Most important cities below the Yangtze in Reds hands were Kiangyin, 85 miles east of here, Kweichih, 130 miles southwest, an dozens of lesser places between Wuhu, 60 miles southwest of here and Anking, 150 miles southwest.

From Kweichih the communists could march straight to the sea at Hangchow, less than 200 miles away. Such a move would isolate Shanghai and Nanking to the north.

SWARM ACROSS RIVER

The Red radio said 300,000 troops had swarmed over the river in small wooden boats between Wuhu and Anking alone. This figure probably was exaggerated.

Fires from communist shells burned in Pukow, across the river from Nanking. The capital's populace was not overly excited. Most people had become resigned to the Reds' taking the capital.

Meanwhile the British sloop Amethyst still was trapped by communist guns which have blasted four British warships in the last three days.

A British naval spokesman said the sloop, heavily damaged Wednesday by artillery on Yangtze river, had moved under Red small arms fire downstream some 10 miles.

All of the sloop's wounded and half of her crew of 148 reached Shanghai.

Three other British men-of-war who tried to go to the Amethyst's relief lay at Shanghai wharves, crippled by communist shell fire. All four had fired back on their attackers.

The death toll of the attack by communist artillery on the four British warships was believed to be 42. An estimated 84 were injured but the toll may be higher. Communist casualties were not known.

Reveal New Way To Repair Bones

MILWAUKEE (UP) — Two doctors have developed a method of controlling bone growth in children by using stainless steel staples.

Dr. Walter P. Blount and Dr. George R. Clarke say their process has proved its effectiveness in equalizing such deformities as knock knee, bow leg and back knee deformity resulting from infantile paralysis.

In controlling leg growth, the staples are driven into the bone, bridging the growth zone, mechanically halting growth. X-rays are made regularly, and when the desired correction is attained, the staples are withdrawn.

Says He'll Stand Up For His Meals

SHANGHAI — (AP) — Captain Peter Cazalet of the cruiser H.M.S. London will probably take his meals standing up for the next few days.

The skipper said today "I got hit in the seat of the pants" when communist shells and shrapnel tore 23 holes in the British ship's hull yesterday in the battle of the Yangtze.

His wounds, he said, were painful but not serious.

A Chinese river pilot standing on the bridge within a few feet of the captain was killed.

Too Gentle Breezes Once More Spoil Kite Contest

The final session of the 1949 Mansfield Kite Carnival, sponsored jointly by the Mansfield Recreation department and the YMCA, was run off yesterday without much help from the wind.

Due to the gentle breezes and other youngsters' activities in progress in the city, less than a dozen boys and girls showed up for the last phase of the contest.

Since the wind would not cooperate, the two winners of the kite altitude contest were the only ones who could even get their kites off the ground.

Joann Bogner and her brother, Kenneth, won the altitude contest for Class A girls (girls over 12 years old and under 17) and Class B boys (boys under 12 years old), respectively.

Stanley Kamen, director of the recreation department, said another contest would be held next year despite the comparatively small number of contestants this time.

Reflects Headlights of Cars

Tape to Make Bicycles Safer

Bicycle riding in Mansfield at night will be safer for youngsters soon when the Junior Chamber of Commerce in cooperation with the Optimist club and the Mansfield Chamber of Commerce provide reflector tape for the bikes.

The organizations are going to schedule certain days at Mansfield schools for youngsters to have their vehicles treated with the luminous material.

Traffic Commissioner Frend Boals has endorsed the operation which is being handled by Robert Schmidt, chairman of the Jaycee committee for the project.

Each bike is to be equipped as follows: handlebars, one strip of tape three inches long on each side of the bars on the forward side; front fork, one strip of silver tape six inches long, mounted on each side; rear fender, three strips of red tape, three inches long mounted horizontally.

The surface to which the tape is to be applied must be thoroughly clean and dry, but youngsters are cautioned not to clean their bikes with gasoline or other fluids which might start fires.

The cost to the civic organizations sponsoring the taping will be about 15 cents per bicycle. Proceeds of the Jaycee-sponsored "The Best Is Yet To Come" show in Senior High school auditorium Tuesday will finance the operation. There are approximately 2,000 bicycles in the city.

The material of which the tape is made has thousands of microscopic glass spheres which make the bicycle reflect the auto lights. Youngsters who have the tape in the proper places on their vehicles can be seen by motorists from any angle.

DANGER SIGNS—These three red strips in the car headlight rays mean there is a youngster on a bicycle. The strips are of a special reflector tape designed for safety of bicycle riders.

Confesses Killing Boy

EAST LANSING, MICH. — (UP) — A 19-year-old Detroit handy-man and mental dullard, yesterday confessed to state police the grisly slaying of six-year-old George Counter in Detroit.

Capture of Hilles and his admission of the sadistic slaying came within a few hours after a two-state alarm had been spread, ordering his arrest. Police nabbed Hilles near Pinckney, Mich. He was hitchhiking.

Leonard said Hilles glibly admitted attempting to pervert the youngster yesterday afternoon while they were playing together.

Russell Decisions Reynolds In Ten

Ohio Champ In Easy Win At Madison

By CHARLEY STINE

Ohio lightweight champion Willie Russell lived up to his "Buzzsaw" nickname here last night in winning a ten-round decision over Sparky Reynolds before a disappointing turn-out of 600 persons in the Madison theater ring.

Russell, cool and canny, had the best of it most of the way although Reynolds acted the part of a human punching bag by letting rights and lefts flow off him like water.

The fight was interesting all the way as Reynolds foiled Russell's efforts to chalk up the 43rd knockout of his fistic career. Two of the KO's had been over Reynolds, who apparently operates under the assumption that the best way to fight is take three to land one. Last night, he took too many and landed too few.

Only knockdown of the fight was in the seventh round when Reynolds hit the deck for two but was forced to take an eight count by local rules. The extra six seconds probably saved him from a kayo.

Reynolds threw just enough leather to slow Wee Willie down in the late rounds and keep him from landing a finishing punch. In the earlier rounds the Indianapolis lad had pushed the fight most of the way, although Russell was never in serious trouble. All judges gave Reynolds the first round and one awarded him the eighth.

Neither fighter suffered any visible damage. Reynolds had a bloody nose in the middle rounds but that stopped as the fight wore on. Russell didn't even bother to sit on a stool between rounds.

MAKE SLUGGING

The four preliminaries furnished more slugging than the main go as all ended in knockouts. Mansfield fighters broke even as Ray "Biff" Bennett was kayoed at 1:45 of the second by Jack "Tiger" Wils of Columbus, and George Kerestes won on a second round TKO over Al Sherrer of Columbus. Sherrer was a fancy well-built fighter but lacked any semblance of a hard punch.

Probably the wildest scrap was the featherweight match in which Indianapolis' Billy Todd knocked out Jack Petty of Columbus in 46 seconds of the fourth round. Todd had Petty down three times in the first round but Petty rallied and in the third had Todd down for a nine count.

The heavyweight scrap between Tommy Woodward of Columbus and Billy "Jackpot" Davis of Fort Wayne was saved until after the main event. Davis made short work of this one by flooring Woodward at the bell of the first round and then knocking him out in 1:05 of the second.

Judges, appointed by the Mansfield boxing commission, were: Bill Groscost, Dr. B. W. Stern and Charles Robenolte. Dick "Honeyboy" Jones and Bill Harry were the referees while Sam Fox served as timer.

The show was sponsored by the Mohican post Veterans of Foreign Wars while Rex Reese acted as matchmaker.

Lippy Leo Says Dodgers Won't Win National Flag

By OSCAR FRALEY

NEW YORK—(UP)—Loquacious Leo Durocher, alias The Lip, prophesied today that if the Brooklyn team he once directed could keep hitting just like it did to start the season it would have no trouble winning the National league pennant.

"But it won't," the New York Giant pilot predicted as he sat in the dugout flanked by Coaches Frankie Frisch and Freddie Fitzsimmons and watched the Dodgers go through a hitting drill.

"They aren't going to keep hitting that way," Leo growled.

Frisch nodded in agreement but cautioned the boss that "they have a lot of speed."

"Yeah," but you can't steal first base," Durocher grunted.

The Dodgers were grouped around the batting cage and Pee-Wee Reese and Carl Furillo of the Dodgers yelled at their former boss that he was in for a trimming, Leo laughed around a battered piece of chewing gum and started a reply when he was interrupted by Frisch.

Spider Jordensen, the Dodger's reserve third baseman, a skinny man whose flannels flap around him, had stepped in the cage and Frisch greeted him with a booming:

"Hey, what's a'matter, don't you guys get any meal money?"

Leo let go a hard chuckle and pointed to Cal Abrams stepping into the cage.

"Watch him try to pull the ball," he said, "and he can't do it. He'll never be able to do it. And those guys ruin him trying to get him to do it."

Then it was Duke Snider's turn in the cage and the Giant bench watched the Dodger youngster carefully. Snider, a burly lad with a loose swing is addicted to taking a cut at bad pitches.

"He'll strike out a lot," somebody said.

"Yeah," snapped Durocher, "but he'll hit a lot of them, too. He can send it out there, don't forget it."

The sportswriters cornered Durocher now and were kidding him that this Dodger team, favored to be in the thick of the pennant fight, was the same club with which he started the season last year.

"Why didn't you keep all those guys out there now?" somebody asked. "Say, for instance, Roy Campanalle?"

"You guys know and if you don't, I won't tell you," Leo barked.

The truth is that the Negro catcher was sent to St. Paul last season, on Branch Rickey's orders, to break the color line in the American Association.

That case alone was proof that Leo wasn't the "boss" at Brooklyn. There's a suspicion that he isn't at the polo grounds, either.

The News-Journal will "cover" the Relays with four staffmen and two photogs. . . . Dayton Dunbar's 62-man track eligibility sheet shows that the Gem City school lists athletes born in nine of the 48 states. . . . Ohio tops the list with 36 while Georgia "foaled" 11. . . . Other figures: Alabama, 6; Kentucky, 3; Tennessee, 2, and Illinois, New York, Louisiana and Missouri, one each. . . . Sounds like the Notre Dame football roster.

★

WEATHER FORECAST: For Saturday, cloudy and warmer with flying spikes at Stadium field.

★

N-J SPORT SCRIBE Charley Stine comes up with this observation:

Barberton high school officials indicated that they have little regard for any sport save football at the Mansfield-Barberton baseball game Wednesday. . . . Spring football practice was carried on in right field of the Ball diamond and umpires had to make a ball hit in that vicinity a ground rule double. . . . The football stadium field stood empty while the grid coaches brought their boys over to tear up right field. . . . What would be the difference between this and the baseball team practicing in the end zone some Friday night next fall.

As if this wasn't bad enough, time had to be called in the sixth inning while the grid boys paraded behind third base in taking their laps around the field.

Illinois Faces Six Road Tilts

CHICAGO — (AP) — Six baseball games on the road faced pace setting Illinois today as coach Wallie Roettger's squad opened a two-game big nine set with Iowa at Iowa City. The Illini have a 3-0 record plus a tie game with Minnesota which will not count in the standings.

Before returning to Illinois field for a final big nine series with Ohio State, May 20-21, the Illini — co-champions with Michigan last year — must face Michigan and Indiana at Ann Arbor and Bloomington after the Iowa series.

Other big nine teams which open conference competition this week end are Wisconsin, Ohio State and Indiana. The Buckeyes entertain Wisconsin at Columbus and Michigan is host to Indiana. Michigan lost its first two conference starts to Purdue.

Ray Bader Leads Rams To 9-3 Win

Madison high school yesterday evened its season record at two victories and two defeats by polishing off Ashland, 9-3, at Blue Goose diamond.

It was "Dutch" Bader all the way. The slim right-hander allowed Ashland but four hits and cracked out the same number himself for a perfect day at bat. He also kept the count even in runs as he drove in three, the same number he allowed.

Bader gave an indication of what was to come in the first inning when he fanned the first three Ashland batters and then singled and scored in Madison's three-run rally. He added a double in the second, and singles in the third and fifth.

On the mound he did not allow a hit until the fourth inning and would have held Ashland to a single run with a little better support. The first run scored legitimately on a walk and two singles but the second tallied while the Ram infielders were trying to run down a man between second and third.

Ashland's third run scored in the sixth on a walk, single, and Jim Brightbill's muff of a ground ball.

Madison was to play at Galion at 3:30 p. m. this afternoon, weather permitting. Jim McMillan was expected to get the mound call from Coach Blaine Dowler.

AA Swatters In Field Day

(By Associated Press)

The slogan of American association batters last night was "throw something up there we can take a cut at."

And they did.

Three A A games, in which 17 pitchers saw mound duty and gave up 51 runs and 61 hits, produced the following results:

St. Paul 12 Toledo 11; Milwaukee 13 Columbus 1, and Indianapolis 9 Minneapolis 5. Rain stopped Kanas City at Louisville.

Indianapolis took over the league lead with three victories and no defeats by making nine hits off three Minneapolis pitchers good for nine runs. Don Gutteridge clouted an inside-the park homer for the Indians in the second inning.

Yanks, Reds Pacing Show

By JACK HAND
(AP Sports Writer)

Attention, Happy Chandler! Somebody is tampering with the big league standings.

Cincinnati, doomed by the experts to finish in the cellar, is the only unbeaten team in the National league.

The poor, old beat-up New York Yankees, supposedly hobbled by the loss of Joe DiMaggio and others, are out front in the American league.

Eddie Dyer's St. Louis Cardinals still haven't won a game, and the powerhouse Boston Red Sox had to resort to bases on balls to break into the victory column.

Maybe things will straighten out when the weather gets hot but right now, Happy, they're in a terrible mess.

Bucky Walters, starting his first full year as Cincinnati manager, followed the old custom of pitching lefthanders against the Cardinals. As usual, it worked.

Following up Kenny Raffensberger's opening day performance, Walters called on another lefty, John Vander Meer, yesterday. The 33-year-old veteran responded with a five-hit shutout, 5-0. Vandy, a 17-game winner last year, retired the last 11 batters in order to top Howie Pollet.

IMPORTANT HOMERS

The power the Reds are not supposed to have, won for them. Hank Sauer and Jimmy Bloodworth hit homers, each with a man on base, to run Pollet's first start.

Now the Reds go to Pittsburgh to help the Pirates open their home season today.

The first night game of the season is also on schedule—Philadelphia at Washington. The Senators had their home opener Monday.

The Yankees' replacements came through to give Manager Casey Stengel a third straight victory over Washington, 2-1. Johnny Lindell, playing in Di-Maggio's old spot in centerfield, started the winning rally against Forrest Thompson with a single in the last of the ninth. After an error, Hank Bauer, Charley Keller's sub in left field, came through with a game-ending double.

Cleveland warmed up for its home opener by thumping St. Louis, 8-2, with the help of homers by Larry Doby and Joe Gordon.

The Boston Red Sox untracked themselves to salvage the finale of their series with the Philadelphia A's, 4-0. It was a scoreless battle between Phil Marchildon and Mel Parnell until the ninth. Two walks with the bases loaded and a single by Parnell gave the Sox their margin.

Chicago finally stopped Johnny Groth's home run splurge, trimming Detroit, 5-2. The White Sox pitchers "held" Groth to one single in two official at bats. He also walked once and was hit by Howie Judson, the winning pitcher. Lou Kretlow, who lasted until the sixth, was the loser.

Leo Durocher's New York Giant sluggers finally hit their home run stride to ruin the Brooklyn Dodgers' Preacher Roe, 4-1. Homers by Sid Gordon and Mickey Livingston, each with a man on, accounted for all runs with Clint (Floppy) Hartung turning in a neat four-hit job.

Bob Scheffing hit a two-run homer in the eighth for Chicago's 4-3 edge over Pittsburgh. Emil Kush, who came on after Walt Dubiel left for a pinch hitter, was the winner over Bob Muncrief, making his first start as a Pirate after his purchase from Cleveland.

The Boston Braves and Phillies were not scheduled.

Buck Baseball Squad to Open With Badgers

COLUMBUS — (INS) — Ohio State's baseball team opens its western conference campaign against Wisconsin today at the Buckeye diamond.

Since completing its southern tour in which the Bucks copped three of five contests against the University of Texas and Texas A. and M., the Scarlet and Gray has beaten Miami 11-4, while dropping decisions to Ohio Wesleyan and Notre Dame.

Pete Perini, mainstay of the Buckeye hurling corps, or Dick Hess, southpaw, are slated to hurl against the Badgers. Last year the Bucks downed Wisconsin twice by scores of 7-3 and 10-5.

Alex Verdova, hard-hitting left-fielder, who was shelved for the past couple of weeks because of a pulled leg muscle, is expected to take his place in the lineup.

Otherwise the Buckeye lineup remains intact with Capt. Fred Taylor at first; Carl Parill at second; Vic Janezic at third. Sparky Bob Weygant is at short and Norb Ranz will be behind the plate.

Jim "Soup" Campbell will open in right and Ray Gebhart, leading Buck sluger, in center field.

Tyger Golfers Open Schedule

Senior high school's potentially tough golf team opens its 1949 schedule tomorrow morning when it meets the Norwalk high linksmen on the Westbrook course.

Coach V. H. Oberlander has the enviable task of picking a starting four from five lettermen and two other fine prospects before the 9 a. m. tee-off time. Lettermen Larry Inscore, Steve Demyan, Tony Taddeo and sophomore Jimmy Hager are the likely starters, but soph Bud Baith and letterman Mike Olivieri will be available.

Hank Heiser Chops Wood To 694 Tune

Paced by Hank Heiser, the Mansfield Rug and Linoleum went on a big wood cutting spree last night on the Colony alleys.

The sparkling performances of the fifth placers made shambles of the Commercial B race. Heiser, rolling in the No. 2 spot, crashed 233-258-203—694 far above Rip Stevens' 202-214-211—627 for Oak Park Tavern.

Mansfield Rug also outdistanced the teams with a whopping 971-1011-925—2912. Schroer's was far down the line with a 2761.

Jack Hanrahan trailed on the Rug quintet with a 189-237-160 while Frank Burton had a 571.

Almost overshadowed was the tight team race between Dearman's Transportation and Yuncker Sports. Yuncker won two of three from Lions club to pare the Dearman's lead to one game with one week to go. The Transportation quintet could win only one of three from Rose Bowl.

Among the individuals: Earl Lucas, Lions club, 177-202-225—604; Forace Freese, Dearman's, 184-213-200—597; Jimm Villella, Rose Bowl, 591; Earl Beilstein, Fancee Brand Foods, 591 and Aid Geiger, Schroer's, 588.

Drizzle Greets Indian Fans for Home Opener

Lefty Gene Bearden Scheduled to Pitch

CLEVELAND—(INS)—Close to 80,000 fans, still suffering from the after-effects of pennant fever, looked with scorn at the weatherman today as he predicted rain would force postponement of the Cleveland Indians' opener against the Detroit Tigers.

Gray skies and a steady drizzle blanketed the Sixth City during the early morning hours.

The throng of fans who purchased every reserved and box seat in the lakefront stadium, however, refused to believe that the contest would be postponed, since the Indians were not rained out once in 1948.

Manager Lou Boudreau had nominted Gene Bearden, who won 20 games and lost seven in 1948, to pitch for the Tribe against Freddie Hutchinson.

Bearden, hero of the world series, had a 4-0 won and lost record against the Tigers last season, while Hutchinson won three and lost two against the Indians.

The Tribe came home early today with a record of two wins and one loss in the young 1949 campaign. They chalked up victory No. 2 yesterday by a score of 8-2 at the expense of the St. Louis Browns, who were befuddled by the two-hit performance of Steve Gromek.

GROMEK ALLOWS TWO

Gromek, who was used as a "spot" pitcher for the Tribe in 1948, gave up both hits in the fifth, when Jack Graham and Dick Kokus smashed consecutive home runs off the pride of Hamtramck, Mich. After that, however, the Brownies were helpless.

Meanwhile, the Tribe was blasting 10 hits, including two homers, off four St. Louis pitchers. Joe Gordon and Larry Doby smashed the round trippers.

The Tribe took an early lead in the first inning on a double by Thurman Tucker, who collected two hits, and a single by Boudreau. The Redskins added three in the third, one in the fourth and three more in the fifth.

Besides Tucker, Mickey Vernon and Larry Doby banged out a pair of bingles to lead the Indians' hit parade.

Bill Starr started on the mound for the Brownies and was yanked in the third. Bob Savage, Cliff Fannin and Ray Shore, a rookie righthander, followed Starr to the mound with Shore giving up only one hit in four and two-thirds innings.

Ohio Staters Meet Purdue Track Outfit

COLUMBUS — (UP) — Ohio State's track team, Big Nine outdoor champion, tomorrow starts defense of its title against Purdue and at the same time unveils to outdoor fans Olympic champion Mal Whitfield.

Whitfield will run the 220 and 440-yard dashes and anchor Ohio's mile relay quartet to provide what will probably amount to the winning margin over the boilermakers.

Otherwise, Coach Larry Snyder said the conference's youngest track coach, Purdue's Dave Rankin, would have his trackers in the mood of opposition—especially in the 100-yard sprint.

"The 100-yard dash will probably look like two races," Snyder said. "Purdue's boys in the first group and Ohio State's about seven yards back.

Another feature of the meet will be the high jump where Johnny Murphy, Ohio's indoor conference titlist, and basketballer Dick Schnittker, will battle Purdue's Marlan Thorpe and Ed Jones.

Six Baseball Tilts Booked For Butler 9

BUTLER — Six baseball games have already been scheduled and four more are being sought by Butler high school Vern Chaney.

One of the two pitchers will play first base, Charles Bernerd will be at second, Harold Workman at short and Ivan Hollar on third. Richard Miller is an experienced backstop and Junior Beale is the likely left-fielder.

Butler has only two track meets on the schedule in addition to the county meet. It will run at Millersburg April 27 and at Bellville May 4. A baseball game with Lucas was postponed Tuesday and will be played later.

The diamond schedule:

Comic Routine Called Off As Hodges Clicks at First

By STAN OPOTOWSKY

NEW YORK—(UP)—That Abbott and Costello routine of who's on first, which so convulsed Brooklyn Dodgers supporters this spring, was drowned out today by Gil Hodges' staccato bat.

And, oddly enough, it was Hodges' bat which started the whole fuss in the first place.

The woeful worry in the Brooklyn spring camp was that Hodges, though a masterful performer on defense at first base, couldn't hit enough to pay his way. This fear started Branch Rickey on his ivory hunt through the rosters of the other major league teams. He said he wanted to buy "first base insurance." What he meant was that he wanted to buy a first baseman period.

The deals Rickey toyed with didn't jell, but, alas, Hodges did.

One swallow does not make a spring, or a highball, but on the record of the first three Dodger games, the 200-pound Indiana lad rates more than a little considerat'on for the regular first base job.

He is one of three members of the Brooklyn team who hit safely in all three games against the Giants—2 for 4 in the first game, 1 for 4 in the second, and 1 for 3 in the third for a lusty .364 average. And as for his fielding, even Leo Durocher grudgingly admitted, "Hodges is the best defensive first baseman in the National league."

If Hodges can keep that bat cracking—and it must be remembered that he originally was converted from a catcher to a first baseman because of his long ball hitting—the Dodgers will simply forget all about that trade talk. They feel that in rookie Kevin Connors they have a man who can step in, should Hodges run into any routine slump not a reflection on his permanent hitting capacity.

The trend now in the Dodger camp is to wait and see and pray. Rickey reportedly now reasons that he has until the June 15 trade deadline to appraise Hodges' staying ability without any great risk.

If Gil should fold, then there's always Johnny Mize. The Giants supposedly want Eddie Miksis for Mize, and Rickey feels Miksis is worth $100,000 to Mize's $35,000. But Br'er Branch wants that National league pennant at Ebbets Field this year, and he may be willing to make what he will consider a bad deal if he feels it is necessary.

Tickets Available For Alumni 'M' Basketball Fete

There's plenty of tickets available for Mansfield basketball fans wishing to attend the first annual banquet of the Alumni "M" association next Wednesday at Richland Recreation center.

The fete will honor the Senior high school basketball team which won the sectional and district tournaments and advanced to the finals of the regional joust in Toledo. Tickets may be purchased from members of the "letter" group or at Doc Cole's, City News, Tawse pharmacy, Richman Brothers and Wood street Cafe.

Tippy Dye, Ohio State basketball coach, will speak and Eugene Lantz, banquet co-chairman, promises other entertainment features. The "most valuable player" trophy, donated by Rogers jewelry, will go to the player chosen by his mates.

Old Connie Changes Mind, Says Athletics Will Win

PHILADELPHIA—(AP)—Connie Mack says he's sure now his Philadelphia Athletics are going to win the American league pennant this season—they're too confident to lose.

Mack prior to the start of spring training picked the Cleveland Indians to repeat their 1948 victory.

The 86-year-old A's manager retracted that prediction today. He's sure his A's will win—for the first time since 1931.

"This spring," Connie says, "I predicted Cleveland would win the pennant. But after talking to my players and realizing how confident they were that they would win I have changed my mind.

"The players convinced me that they will win."

Mack thinks the Philedelphia Phillies have a good chance to cop the National league flag.

"They have a fine club," Mack says.

But back to the American league—the Indians and the Boston Red Cox.

Don't they rate?

No, says Connie.

"The Red Sox have the power, but no pitching and while I think they will be in the running I do not think they can win."

In their opening series with Boston the A's took two out of three.

Cleveland's pennant chances?

"If the Indians lose Bob Feller it certainly is going to make things a lot easier and simpler for us," Mack said.

3—In Memoriam

IN MEMORY of our dear husband and father Chester Scott Tucker, who passed away six years ago today, April 22, 1943

Six years ago you left us,
And how we miss your loving face.
But you left us to remember
None on earth can take your place.
We are lonely, yes—
In the years that have passed away
And we know you'll always guide us,
Till we meet again some day
We do not need a special day
To bring you to our minds
The days we do not think of you
Are very hard to find
As each day comes and each day goes
How we miss you God only knows
Sadly missed by Wife, Catherine and Children

Law Officials Start Feuding In Columbus

COLUMBUS — (INS) — County commissioners became referees yesterday in the fight between Sheriff Ralph J. Paul and Columbus Police Chief Frank L. Harrison.

The two have been feuding over the parking of county sheriff's cars in restricted zones near the courthouse. The feudin' reached a climax when city police hauled away the auto of Paul's chief deputy to the city auto pound.

Neither Harrison nor Paul gave way in the dispute. The commissioners attempted to untangle matters by clearing a private alley south of the courthouse and earmarking it exclusively for county cars.
